Thread: [\[RAR password breaker\] Free](#)

aabbccddeee - February 8, 2014, 4:04 pm

I will break .rar file passwords for free, just post the uploaded file URL in this thread or PM me the location and I will get to you when I break it. I will PM you the password, though it could take days. ?

KingLulz - February 8, 2014, 4:05 pm

But this is so easy... I could just do it myself.

aabbccddeee - February 8, 2014, 4:07 pm

But all people can't do it like me and you.

KFClover - February 8, 2014, 7:20 pm

If it's a clash of clan hack that needs you to activate a key, can you crack the password?

Sparkyau - February 8, 2014, 11:12 pm

i'm guessing you wouldn't like to tell me how you do this? so i could help others as you are.

aabbccddeee - February 9, 2014, 6:29 am

All I am doing is using my high-end PC to do a brute force attack on the RAR file. With a sucky PC though, it could take 10x or longer than my PC. And no, that would be illegal KFClover. Though on some RAR files it could take weeks, so if you do not want your .rar file cracked, use a-z and A-Z, 0-9, special characters, and make it about 10 characters long. And no full words just in case they use a dictionary attack. This will be unbreakable in any given time by a brute-force attack, the only other way to find a loophole or bug in WinRAR or 7-Zip itself.

Have fun.

aabbccddeee - February 9, 2014, 6:40 pm

Started Benjamin Franklin. Be back to you shortly.

Benjamin Franklin - February 9, 2014, 9:18 pm

Don't PM me the password, just post it here. It's nothing that I use, and I'm sure no one else has, or will.

hackermohu - February 9, 2014, 10:15 pm

Can i have the password for fun.rar Mr. Benjamin Franklin

Lol you probably encrypted it with Blowfish or something.

meesie22 - February 10, 2014, 11:09 am

Can I please have it, that would be nice :)

Benjamin Franklin - February 10, 2014, 1:01 pm

Nah, it's just a long password with random chars.

OP, inside the .RAR are 2 images that I have made. Feel free to post them if/when you crack the pass.

aabbccddeee - February 10, 2014, 2:28 pm

This will most likely take weeks, or might be uncrackable if you made it too long.

HackJust4Fun - February 10, 2014, 4:10 pm

benjamin, what is inside of the link that you put here?

sorry for bad english i think xD

Just 1 image that I made in Microsoft Paint, and the second one is that image, but I did some edits in Photoshop.

OP, if you decide to stop trying to crack it, I will post the password here for everybody to take a look at.

thank you brotherrrrrr hahahahah ?

HackJust4Fun - February 12, 2014, 9:44 am

what? stop trying crack it?

you are crazy KK

but

can you PM me the password please? xD

ZiziBoss - February 12, 2014, 9:46 am

HMMMMMM

Take's to long xD

This will most likely take weeks,

I will only release it if it has been cracked, or he decides to stop trying it.

Yes download a program called rar password cracker. it bruteforces the password or you can use the doctionary method.
