Thread: [\[Added\] Member List Sorting Option](#)

M?tt - May 6, 2010, 6:02 am

Should "Sort members by rep" be added if possible? I've always wondered where some members stand in the community when it comes to rep. It usually tells you how much the member has done for the community and of course, Omni is the only one above 400 (I believe), but I was just curious and wondering if this could be added to the sorting options on the member list. Not really a big suggestion or one that will help the community in any way, but I'm just curious. :P

This will never happen. Atleast I think so.

Lol well that's an awesome way to start out my suggestion. But yea I didn't think it would be possible, but I thought it would be fairly neat to see added.

I am not looking forward to it, but could be a good addition. Maybe a little bit of abuse as people would want to get to the first page, but other than that, abuse potential is low, unlike a lot of reputation point related suggestions. This is my opinion.

Well it's a well written opinion and I see where you're coming from. However, you can't really "ask" for reps to get you on the first page because then you'd just get rep fucked and you get to start all over so it'll be the member's mistake for asking. Otherwise, the member will start giving stuff out for free to L33T / Ub3r members and who is to complain? Not me. :)

Not bad. It could be simply for fun. Let's await Omniscient's response.

\$20 says he'll probably decline it. :P But I thought it would be a good idea and maybe with some other member approvals and possibly some higher approval, it could be put into effect.

You make a fair point above. Asking would get them Rep-Fucked, so there wouldn't be a point in asking if they just wanted reputation points to get on the first page.

Well then, it will be fun! ?

Exactly and the members that will wind up on the first page will all be admins, moderators, and HJT users for the amount of help they put towards helping members here on HF.

Yet again an unnecessary suggestion. I doubt Omni will even entertain this.

cobija - May 6, 2010, 6:45 am

Dont feel bad if he declines it. His decision also depends HEAVILY on his mood ?

How is this unnecessary? It's a suggestion section. Anyone can suggest anything they want. I know it's not something that will make the community better, but I'm sure there are quite a couple members here that would like to see where they stand when it comes to rep, just like posts and join date.

I don't really care if he declines it since I have no say in if this gets approved. I just thought of it now and posted it here and wanted to know what you guys thought about my suggestion and maybe, it'll get approved. If not, then oh well.

As if everyone's didn't.

As for the suggestion, most likely a no, would require quite a lot of coding.

Omniscient - May 6, 2010, 9:58 am

Done. Took me less than 10 minutes. Actually some of the code was already in the mybb core files.
