I just love mixing moonshine 50/50 with orange juice or sprite/mountain dew, got called a pussy before because of it...

Capwne - February 12, 2014, 5:09 pm

My buddies dad makes what he calls cherry bounce he distills his moonshine with cherries. Tastes super good has little to no alcoholic taste but will fuck you up quick! And I'm not talking about that store bought bullshit either!

In Denmark you can buy alcohol at almost any age, they never ask for ID. (You have to be 16 to buy beer, and 18 to buy stronger alcohol).
