Spoiler ([Click to View](#))

(Feb 15, 2014 10:51 AM)Terry. Wrote: [\[CITE\]](#) This E-Book offers a couple different methods of making money, all from your computer desk.

Quality: 2.5/5

Well, it's honestly not the best E-Book I've seen in my days.
The methods will work, but it's mainly just a collection of some common sense methods.

Ease of use: 2.5/5

Well, all of these methods are extremely easy. You don't have to do much for them.

Grammar: 2/5

Well, the author isn't a native speaker, I can tell. It's not terrible, though.
Completely legible.

Layout: 2/5

Mainly just black on white text. Pretty plain, but not bad on the eyes.
Better than some, but lacks on pictures. Meh.

This is a review of this product. I am in no way, shape, or form affiliated with the creator, and or salesperson of this E-Book.

(Feb 15, 2014 10:53 AM)Diclonius Wrote: [\[CITE\]](#) i got a review copy

there are 6 methods 1 of which is blackhat .
the potential to earn money from this is great i dont see these becoming saturated.
the author gets his point across and you should have no trouble understanding what he is saying,
but there are a few grammar errors here and there.
all in all the book is worth it to any newbies looking to earn their first money online

this book gets a 7/10

(Feb 17, 2014 11:53 AM)George The Chicken Wrote: [\[CITE\]](#) Here is my review, per the vouch copy I received of this e-book:

Content: 8/10

The E-book didn't contain any pictures, but did explain everything understandably.

Ease of use: 10/10

There are a good number of methods in this e-book. They aren't exactly explained how to set up, but any logical person could set a number of these up within an hour.

Grammar: 7/10

The E-book was readable and understandable, nothing I couldn't understand but the grammar wasn't exactly the best. But as I said, didn't affect the experience.

Overall Rating: 9/10

These methods are quite simple, some I've seen before, maybe public or other e-books, but some are quite original and I would definitely agree that they would make money.

(Feb 18, 2014 02:51 PM)Cute Wrote: [\[CITE\]](#) Vouch for this guy I know him and he's very legit.

(Feb 20, 2014 04:29 PM)Jennifer Lawrence Wrote: [\[CITE\]](#)

Hello. I am Jennifer Lawrence and today I will be reviewing your eBook.

Content: 8/10

There are very many methods in here that can help you start making money. Some of them are very helpful, and some of them are not. It contains common methods that can help, and then theres some good methods that cna make you about 20\$ per sale.

Ease of Use: 10/10

All of these methods are fairly easy to perform, with the exception of one that will take more time than most.

Grammar: 9/10

There aren't many grammar mistakes, as there are spelling. Otherwise, it's fine.

Overall: 8.5/10

This is an ebook mainly for beginners. Most people who can make money already know some of these methods. I recommend this only to new users that want to get into monetizing.

Side note : If you need another item or website reviewed, please do not hesitate to contact anyone from our group thread to do it for you!

iwu - February 20, 2014, 3:29 pm

Hello. I am Jennifer Lawrence and today I will be reviewing your eBook.

Content: 8/10

There are very many methods in here that can help you start making money. Some of them are very helpful, and some of them are not. It contains common methods that can help, and then theres some good methods that cna make you about 20\$ per sale.

Ease of Use: 10/10

All of these methods are fairly easy to perform, with the exception of one that will take more time than most.

Grammar: 9/10

There aren't many grammar mistakes, as there are spelling. Otherwise, it's fine.

Overall: 8.5/10

This is an ebook mainly for beginners. Most people who can make money already know some of these methods. I recommend this only to new users that want to get into monetizing.
