Thread: [Can you Adf.ly a Adf.ly?](#)

Okay so I was wondering, can you just ad.fly the adf.ly links? So it would be endless adf.ly pages, which would earn you a bunch of money?

Ex. Adfly 1 > Adfly 2 > Adfly 3 > Adfly 4 > Adfly 5 > And then to your page.

If you use another URL shortened I don't see why not.

Well if you tried it you would find your solution ,
Useless Thread :/

You'd have to have it to lead to a bit.ly [WARNING: potentially infected] or url shorten er to do it.

True, but I rather not get banned from Adfly for something like this. They are known for banning.

You can't shorten a adfly link with another adfly link, or any other shortening service.
