Thread: [Minecraft Server Votes On PMC](#)

SKUZZ - February 15, 2014, 10:31 pm

I will send 100 votes to your Minecraft server posted on PlanetMinecraft for \$7. 200 votes for \$14 and so forth.

I did this to my server and it went from 5 to 16 players. This does a lot. Also, the votes will start within a few hours to a couple of minutes, and it takes several hours for them to deliver so they look legit. Also, since it takes several hours, it basically s your server 100 times throughout the day, meaning more people are likely to see it.

It's 2 AM here so tomorrow I will work on a thread design n' shit tomorrow.

Nick - March 1, 2014, 4:26 pm

Are you still doing this? I may be intrested
