I am personally not a fan of the theme, but your idea sounds pretty solid. As for the theme, I think you should use a more metro and modern design, maybe to complement your whole idea (considering it's a marketing and promotion forum).

Our new theme has been released. Come check it out!

Nice enough alright, some of the advertised forums are already dead though haha.

Hidden™ - March 9, 2014, 12:10 am

Looks like a nice site, although the purple line at the top could leave and the theme overall is a bit cluttered.

Hydraulic - March 9, 2014, 5:52 pm

Good luck with your new forum, may the best be with you.

Anyone care to provide more feedback?

What do you like about it? What do you hate? What would convince you to join? What is keeping you from joining?

Thanks in advance!

I like it! It is better than a year ago with that horrible theme. One thing I think that should be worked on more is the Mobile Theme as it is a little difficult to navigate I think. It is missing something though which is what keeps me from visiting every day. I don't see anything that pulls me to your forum. Maybe you should have some very unique feature or something to keep me visiting!
