What are your favorite Netflix shows/series? I need new things to watch and thought I would ask everyone here and share if anyone needs some too. There is probably another thread about this but oh well.

My shows that I really like:

Dexter

Breaking Bad

Prison Break

Supernatural

Weeds

Arrows

Lie To Me

How I Met Your Mother

Walking Dead

Malcolm In The Middle

EDIT: Also, Blue Mountain State

I have seen a lot more but those are just a few that I really like.

You watch most of the TV shows I watch man!

Try Leverage. It's kinda old and sometimes the storyline doesn't make sense, but I still like it regardless.

If you can find free places to stream or DL, you should definitely check out Game of Thrones! Best TV show ever

I Love The Walking Dead and Breaking Bad, they really entertain me and at sometimes make me laugh and at other times make me go wtf.

A really good series that i recommend is Misfits, but dont go past season 3 as it starts to drag on a bit :P, the series is about a group of teenagers who get superpowers and also get in to trouble, you could also try Heroes which is basically the same thing.

I've watched that show too! It's pretty weird at some times but it's pretty good!

Blue Mountain State. Be warned though, once you start you cannot stop and will sit for hours on end watching it. Then after you finish every season, you will feel inclined to watch every season again, because it is just that good.
