Thread: [My SQLi Dork Scanner v2](#)

RieqyNS13 - February 16, 2014, 5:42 pm

hello guys, i will share my sqli dork scanner source code which I made with C#. this is some screehshoot:

scanning process

Spoiler [\(Click to View\)](#)

sites that are considered vulnerable will be put to the tab Vuln site

Spoiler [\(Click to View\)](#)

and Proxylist tab. This is used if "Proxy" option was selected to "Yes".
the Proxylist will be used randomly.

Spoiler [\(Click to View\)](#)

[Download Program+Source Code](#)

sorry, the source code contains few of my local language. I have not time to change to english language in my source code ?

I hope this useful ?

Toasties - February 16, 2014, 5:58 pm

Whoaa nice one. I was thinking of coding a scanner into my project.

Thanks for sharing.

uberalles - February 17, 2014, 1:06 am

looks nice. I will try it. Thank you for sharing.

RieqyNS13 - February 17, 2014, 3:18 am

@Toasties: thanks for your feedback :) btw, if your project has been finished, don't forget to share the project

@uberalles: thanks also for your feedback :) I appreciate it
