Thread: [Binding a spyware - RAT to an image](#)

DemHacker - February 23, 2014, 2:46 am

Hello, i found a way to bind a spyware, RAT to a word file but i'm not finding a solution to bind it to a image, on double click it execute the spyware, RAT, i found some old ways that are not working can you help please! thank you!

Peter DragonSlayer - February 23, 2014, 2:51 am

Sure i can help you

I sent you a pm (:

Sekret - February 23, 2014, 2:53 am

Search google with "iexpress to bind"

You cant bind an PE(Portable Executable) to image.But you could pack it with one.sfx compiler might be able to help you.
