Ask me any questions related to the MyBB forum software - <http://mybb.com>. Please note I will not privately contact you via Skype or private messaging; all support stays within this thread. I will not be promoted to administrator on your forum and fix a bug or two for you, as you will not learn that way.

Go ahead and request support from myself. ?

Understalker - February 23, 2014, 4:44 am

You're using a Lounge image, not a Legion one.

?

Isn't 1 Mybb helpdesk enough? Nice to see you're trying to help however there's already a Mybb helpdesk hosted by Addiction.

Rapist?

<http://mods.mybb.com/view/page-manager>

You could perhaps use Page Manager to do so. Install the above plugin provided free of charge from the official MyBB website. Create your new page with the videos you want within.
