Thread: [Embeded youtube video mute](#)

OhMyQuad - February 24, 2014, 3:25 am

I'm looking for a way for the embeded youtube videos to start as already muted, then if someone wishes to enable sound, any idea if this is possible?

Alahamora - February 25, 2014, 9:07 am

I don't think it can be done. You can auto play videos with a 3rd party player but muting it not sure.

x0n - February 28, 2014, 2:47 pm

Hey!

I just tried this code and it works to 100% :)

Feel free to pm me if you have any question.

what the script does:

Autoplay = ON

Muted = ON

```
Code <script src="http://www.google.com/jsapi"></script>
<script src="http://ajax.googleapis.com/ajax/libs/swfobject/2.1/swfobject.js"></script>
<div id="ytapiplayer">You need Flash player 8+ and JavaScript enabled to view this video.</div>
<script type="text/javascript">
  google.load("swfobject", "2.1");
  function onYouTubePlayerReady(playerId) {
    ytplayer = document.getElementById("myytplayer");
    ytplayer.playVideo();
    ytplayer.mute();
  }
  var params = { allowScriptAccess: "always" };
  var atts = { id: "myytplayer" };

  swfobject.embedSWF("http://www.youtube.com/v/YOUR-CODE-HERE?enablejsapi=1&playerap
iid=ytplayer&allowFullScreen=true&version=3",
    "ytapiplayer", "290", "160", "8", null, null, params, atts)
</script>
```

Replace YOUR-CODE-HERE
with

<http://www.youtube.com/watch?v=0a5WyAjL1MM>

good luck!

One_Freed0m ?

One_Freed0m ?

That's amazing, thank you.

How about having autoplay off?

x0n - March 1, 2014, 12:39 am

If you want autoplay off, Simply Delete

```
ytplayer.playVideo();
```

From the code :)

Enjoy
