Thread: [LTC payment taking too long? How long does it usually take?](#)

Kim Jong-Illest - February 24, 2014, 2:47 pm

I had someone send me some LTC and so far after ~20mins it still even shown on my wallet as unconfirmed.

How long does this usually take to even show as unconfirmed.

I am using Litecoin-QT (which is updated to the latest block and has a healthy connections to 11 peers)

Cheers

Check the blockchain to see if it has sent from their address yet. If it has, make sure it went to your address and not some other address by mistake.

Cheers

Go here: <http://block-explorer.com/>

And enter his address where it says search. Or even you address to see if your wallet is just behind.
