Staff Read Spoiler: Spoiler ([Click to View](#)) To Staff, I have no idea where to post this, so if you feel this is in wrong section please move it.

Hey HF,

I was just wondering what are some good clean kinda dark rainmeter themes? I have had the same theme for ever, so I am looking for a new one. Post suggestions!

When I wanted to use Rainmeter, everyone was redirecting me to deviantArt for Rainmeter theme, I think they have have a "tag" for it.
