Thread: [\[TuT\] Bypassing CCBILL \(90% success\) \[TuT\]](#)

RANDOWN - May 8, 2010, 4:18 am

CCBILL is an online page for payment through checks.

Usually it's found in porn sites like Bangbros, Teens for cash etc.

Well it's however possible that we can bypass the CCBILL page.

We can become member without paying a penny.

REQUIREMENTS:

A Kool Brain

Hotspotsheild: www.hotspotsheild.com

DISCLAIMBER: Generating Bounce checks is illegal, use at your own risk.

Turn on Hotspotsheild. ?

STEP-I

Go to www.whatismyip.com & verify that Hotspotsheild IP belongs to US otherwise disconnect & try again.

STEP-II

Go to <http://www.fakenamegenerator.com>

Once you're there generate a fake identity.

Then create a new email id on Gmail.

STEP-III

Then go to www.netspend.com

Once you're there open an Account.

Enter the identity generated & email created earlier.

Once you've done that Sign in.

Go to Add/Manage money & Select Paypal Transfers.

Once you're there copy the routing & account no.

STEP-IV

Go to the website signup page

Once you're there enter name, email & zip from STEP-II.

Then select Monthly Subscription & Payment Method as Online Check.

Once you've done that click the button "Click for Instant Access"

You will be redirected to CCBILL Page.

Once you're there enter all the details from STEP-II.

Then in Payment Information Column,
Enter routing & account no. from STEP-III.
For SSN think of a 4 digit no. with 00 beginning sequence
Ex: 0077,0054,0091,0029 etc.

Once you've done that scroll down & check the box.
Once you've done that click the button "Authorize Payment".

Once you'd that you'll have your details on next page.

If there is error in SSN, try again with different no.
Most of the time there is no error.

Once you've got the details go to members url, enter & enjoy!

Make sure that during whole process you should use VPN.
Otherwise your Connection may be closed by your ISP provider.

A Thanks is appreciated if you like it. ?

Wonderful Tutorial worked for me

draker - May 9, 2010, 5:15 am

LOL.....<http://www.fakenamegenerator.com>

jackcough - May 9, 2010, 2:36 pm

It failed for me. I got some Pre-Auth error. Any idea why it didn't work for me?

Mr.BTC - May 9, 2010, 6:33 pm

wooooo im going to try this tomorrow thanks dude :D

-mothered- - May 9, 2010, 8:33 pm

Well even though I don't utilize this, I may just give It a crack, just to see the outcome. Judging by the positive feedback, I believe It's well worth looking Into.
Many thanks mate :)

They can still see through hotspot shield to your original ip.

Just get some victims on poison ivy rat from the U.S and use their computers.

I have like 27 of them.

Great tut though :)

"Could not find a card matching that number" Is what I get when trying to sign up at netspend, tried several numbers from the FMN site..

tunawich - May 22, 2010, 6:13 am

Hi, first post here :)

I followed the instructions but still get error.

Card declined at Pre-Auth. Please validate that the entered information is accurate.

Any idea why? Tried 2 websites.

Funny thing is I tried the tutorial that uses fedwiredirectory a few days ago and it worked. Now I can't replicate it heh.

Thanks.

Virzile - May 22, 2010, 8:56 am

hotspotshield isn't working anymore ?

thisisforthecash - November 21, 2010, 6:22 pm

netspend.com asks for the CVV number for the credit card. help?

snack5 - December 8, 2010, 2:41 pm

i get the message :

Card Declined at Pre-Auth BC.

any help plz ?

PACHEKIN - December 12, 2010, 9:20 pm

netspend.com asks for the CVV number IMPOSSIBLE

axmetmcl - December 12, 2010, 9:50 pm

thank you for this tut dude. i will try it later. i hope it will work :)

'Snorlax - December 13, 2010, 4:38 am

Learn to spell.

Sheild is spelled shield.

www.hotspotshield.com

kathiresan - December 14, 2010, 10:30 am

is it safe will i not get caught

what are the ways to be safe

kathiresan - December 15, 2010, 2:21 am

•The street number you entered appears to be out of range. Please review the address supplied and make any necessary changes

WHEN EVER I TRY TO CREATE I GET THIS ERROR

thisisforthecash - January 2, 2011, 5:46 pm

netspend asks for the CVV number, which isn't included on fakenamgenerator. Any tips on how to remedy this? Thanks! =]

okedokie - January 3, 2011, 9:24 pm

yes....trying with the other website and successfull, thank you....

pony77 - April 29, 2011, 4:09 am

what are the sites ? that it is possible to do it ?

thanks for your answers

because it didnt worked for me , i tried rk. and bangbros

can you put screens (of course without account number)

(hope)

thanks :)

elbricolo - July 9, 2011, 7:47 am

Thank you very much RANDOWN, will try that!

(° ? °) - July 9, 2011, 7:51 am

Shit this looks complicated.?

I think i'll just stick to pornhub.com

But i appreciate the effort you put in this. One day when i'm no too lazy, i'll try this out.

rscweb - September 1, 2011, 11:29 am

very cool tut, thanks for your work!!

Vrah - March 15, 2014, 10:01 pm

I just keep getting stuck on the netspend account. Says "cant find that street"

You'll change your mind once you get your hands on a bangbros account, it's ah life changing experience

ZWoW - March 16, 2014, 12:26 am

Awesome, thanks a lot for the tut =]

Cudddy - March 17, 2014, 7:39 am

To people who reply to thread was written in 2010:)

please don't raise old thread

Try and find out yourself?

Why ask others if it still works lol.

I mean you could've easily answered my question instead of taking the time to tell me to...try it myself.

Anyways, that's a pretty dumb question, why wouldn't I ask first before potentially wasting my time and getting into potential legal trouble over some porn lol

First of all, get some better spelling and grammar, and second, learn to read. Not repeating myself. Yall are wasting time telling me to "dO iT MySeLf LuL" instead of giving a real answer.
