Thread: [\[E-Books\] 3.6GB of books \[Direct link\]](#)

**TonyTonyChopper** - February 25, 2014, 3:53 pm

Hey guys, I found these on my HDD the other day. I can't remember where I got them, or how up to date they are but I figured I would post a link to them.

If there is an e-book that belongs to someone who wishes to have it removed from the pack they can message me and I will remove it.

So [Direct Link](#), Enjoy.

-edit-

If you see a few you want, but nothing else pm me and ill make a personal pack for you.

do you have permission of all these ebook owners to give this away for free? do not think so, and if you do not have permission of all the owners this is considered leaking.

I'm pretty sure 90% of these e-books can be found readily available online. It's just a matter of knowing what to search in order to find them.

If there is an e-book that belongs to someone who wishes to have it removed from the pack they can message me and I will remove it.

**Serkan13** - March 6, 2014, 7:56 am

Great collection you have there, a lot of ebooks bud. Would you be so kind to make a custom mini package for me?

Would like to have:

- A practical guide to linux commands editors and shell programming
- Erickson, Jon - Hacking - The art of exploitation
- Professional penetration tester
- The botnet guide
- RemoteExploits 2

Thanks in advance ;)

**Serkan13** - March 10, 2014, 7:12 pm

i went thru these ebooks and i must say that they are really a great asset to my collection...thanks again buddy !!!!
