I can vouch for this product. I won his first giveaway for this method and I made money within the same day of receiving it. The method is pretty straight forward and I was surprised I had never heard of it before. It will take a little time to make a nice income, but with hard work comes hard money and this method will make you some hard money if implemented correctly.

?tortion already started earning some cash with the method and has some nice unique ideas how he'll monetize it further.

I have purchased this product and must say i am incredibly satisfied! This is one of the most inventive and straight foward methods on Hack Forums! I have purchased quite a few Bullshit ebooks in my time and this is by no means even close to ayn of those! Anakin has developed a true HQ product that can easily earn you tons of money! I've already made the money I spent back within 2 hours! This method is totally unheard of and has absolutely massive potential. It takes a little bit of work at first but after you set it up it is 100% auto pilot. You can just watch the money flow in! The more work that you put in the more money you will make! Its absolutely brilliant!

How long would it take for me to earn my money back? Also are you still doing the discount?

Anakin™ - March 30, 2014, 1:35 pm

(Mar 30, 2014 11:44 AM)MysticParadox Wrote: [\[CITE\]](#) How long would it take for me to earn my money back? Also are you still doing the discount? That depends only on yourself. My clients usually start earning money a few hours after they purchase the eBook. The more time you dedicate to it, the bigger the earnings.

Yes, discount will still be here for a couple more days.

Anakin™ - April 1, 2014, 10:18 am

Method still working guys! Let me know if you're interested, discount is still available!

Changed the currency to Euros to avoid double conversion.

Also check the giveaway thread [here](#).
