Thread: [\[TALK\] How YOU started \[TALK\]](#)

Brule - March 1, 2014, 12:27 pm

As the title says, I'd like you to comment how you started, when entering the world of hacking. This could be useful for a lot of new members which is stuck on where to start, I'm pretty sure we've all been there. ? So, go ahead and comment how you started ! ?

Well, I started because I was tired of being the equivalent to a wet noodle over the internet.

Spoiler ([Click to View](#)) Eh, I was bored one day and I decided to learn how to RAT. I don't anymore, I am White hat these days.

So this guy ^ started with RAting, if you're going to start with RAting I'd recommend you to use Dark Comet RAT, as there is many tutorials on how to setting it up, plus it's free ! Thanks for your comment .

I started when i was like 13 and noticed It was possible to code "bad things" (viruses and etc). I knew a lot about computers in that time so I got more and more interested in the world of hacking.

Okay so i have started RATING about 4 years ago when i was like 14 years old. I was RATING only for fun because i got bored of games but then it happend i was lucky and i have found a guy with paypal account (i stole 200 euros from that) after few days i was scared like hell so i just quited RATING (i was afraid of getting caught) And now after a while i have come back to RATING because i know what can happen to me i know more ways on how to hide my self and like 3 weeks ago i setup'd Darkcomet and try my luck i was kinda really happy few hours of torrent spreading got me steam keys worth of 160 euros.

Not bad, you should get yourself hidden if you're getting money by RATING. Like offshore, no-logging VPN. :) ! Thanks for your suggestion .

While some people on here know alot about hacking, and they truly deserve respect, Some others are just plain arrogant. They join, ask the famous question : "how to hack a FB password" and leave.
