Thread: [\[TALK\] What Booter does the community recommend \[TALK\]](#)

Brule - March 1, 2014, 3:46 pm

So, just as the title said, I'm pretty much opening this thread for people looking to purchase a booter, can here check the community's recommendations.

So, feel free to post your recommendation ! ?

You mean consistently break? It's power is so weak; hits only 3.5GB ... Or?

And besides, why is it so cheap?

Don't buy DollarBoot for sure; I just bought it an it's a waste of money. Doesn't hit at all just like most of the booters on HF.

Check out <http://powerbooter.pw>

You won't be disappointed.
