Thread: [HELP !!! Suede shoes got wet](#)

SIM-1456245 - March 1, 2014, 4:49 pm

Help please, I just got home and my suede shoes were a little wet and a little dirty, so I figured I might clean them with a wet wipe, and I did, but I shouldn't have done that, because now i have a nasty stain on the side of one shoe. I tried to dry it off with a hair dryer but it stays the same. What should I do, please help.

make a paste with laundry detergent and baking soda then apply on let sit 5 minutes and scrub off with a toothbrush wipe clean with cold wet rag. Source white as the day I bought them converse shoes

scam. - March 1, 2014, 4:52 pm

dunk the whole shoe. That way it is completely unnoticeable because the shoe is water stained.
