Catchy title, yeah? Okay ...

[Big Bang](#)

[The Last Host](#)

[NetSpoof](#)

? Those are common booters, now I am on a mission to know their powers and get me the Best Deal

So help me with your infos and I will be discussing it with you. I haven't got enough time and I am anxious ... So let's begin; and yes, you can post where, as long as it's going to help me.

A poll will be added, so don't forget to tick if you are only %100 percent sure, and comment as well.

netstresser is the best booter IMHO even tho its always best just to setup a nix

Creepy - March 2, 2014, 1:18 am

Highly Reccomend Big bang booter. Been using it for a while. Instant attacks. Easy and cheap.

Something is fishy about Big Bang's booter as it is very very cheap ... Like incredibly cheap, why is that? And it's hits are 3.5G/B only ... I don't get it.

I don't get it. I have been using it for a while, owner is nice. Prices are cheap to most likely get sales. Hits hard for me. Takes down home connections really fast.
