Hello,

This is Tenaxium, A Ub3r member here, my profile is:

<https://hackforums.net/member.php?action=profile&uid=1759389>

And I just lost my account, perfect ?

Well basically I had to much stuff running on my computer so I logged off my computer and came back in, and I don't know what happened but I was logged out from HF, I always count on it to just never log me out or remember my password, WELL, it didn't.

So I tried to recover my account with my email (ermergerd6@gmail.com) and I realized I forgot the password to it.. I keep it in a program, but I forget the password to that to.

If you check my IP you will see I have the same IP.

What I have done:

I created a new email just for HF; when recovering my account I wish to use it.

Tenaxium@Gmail.com

I promise I will make my password something I can remember for the future

Is that all?

PROOF:

1. I have posted before that my name is Chris, so I took this screenshot.

Spoiler [\(Click to View\)](#)

2. I am on hackercraft and I can confirm its me.

3. Me and my lost account have the same IP's

4. You can contact me on my SKYPE to confirm this is legit. That's working fine also. My Skype:

Tenaxium

5. This is my push account with photos from a thread I posted earlier.

Spoiler ([Click to View](#))

You know, I have seen these threads before they are either

A: Junked immediately

B: Closed with the reason "use contact form"

C: Forgotten

A: Don't junk this. The rules state I am ENCOURAGED to make a new account

B: The rules also state I can post a thread asking for support.

C:

I love this forum SO MUCH! That's why I donated over \$500 This forum, just means so much to me I don't know how to word it.. I was almost crying when I even considered I would lose this account.. I honestly don't know what to say, I wont sleep tonight unless I know I have my account back. I don't know what I will do without my account..

Well, lets see how this goes ?

I will be PMing staff at 25 posts, Im not going to be spamming though so don't ask me why I didn't PM them.

n0minal - March 2, 2014, 1:55 pm

Good luck with that man, sucks if you lose it.

Stealth™ - March 2, 2014, 1:56 pm

If you can prove it's you, I hope you get your account back!

Also, you should use the 'Contact' tab above.

Digdug - March 2, 2014, 1:56 pm

Vouch. He is on hackercraft asking us to verify this is him.

I can. Jump on hackercraft, and I will have staff check my IP.

Sasaki Haise - March 2, 2014, 1:57 pm

You should be PMing this to the staff to see if they can resolve this for you. Just give them proof and let other members vouch.

Emoticon - March 2, 2014, 1:58 pm

Damn. Hope everything goes well with getting your account back, you're an HQ member on here. Make that password something you can remember next time -_-

You'll get your account back if you're on the same IP as you've been on from your primary account, no worries. :P

Fox™ - March 2, 2014, 1:58 pm

Really sorry to hear about this Tenaxium, you seem like a nice guy. If you're, you, and Staff can verify that, I wish you luck in getting your account back. What time did you lose it?

As soon as I went to hackforums and saw: Login Register or whatever it was, maybe 1 hr ago I first noticed?

Pilatus - March 2, 2014, 2:09 pm

Well, it looks like there haven't been any logins to the account or anything since then, so it looks like it's not stolen. Just forgot your password?

I didn't think it was stolen. Yep, it was random as I have confirmed it before, but was lazy and never changed it.

I've lost a forum account like that before, but I was able to recover it via email. Kind of rough you lost your email account as-well.

You see, I have this program called "Random password generator" and it requires a password to access all my passwords, its been a long time since I have used it, and a long time since I have thrown out the paper I wrote it on, so I just got really unlucky today.

I think you meant to say, "An inactive staff member wont stop me from getting my account back."

The way you said it wasn't quite right.

Anyways, hopefully you get your account back.

Do consider they're most likely hiding their online status, so you won't be able to tell if they're online or not.

Yea, I could see that being confusing.

There are some staff members online, but so far no administrators.

Then again, I actually think Omniscient and the other administrators are hidden from Ub3rs as well.

They are. I doubt Omniscient will have the time to deal with this, so I am PMing x4chang as he was on earlier.
