Not even 20 minutes.

(May 8, 2010 05:02 PM)camgaertner Wrote: [\[CITE\]](#) How long does it take to get the swagbucks, and are you guaranteeing that we will make money?

Well, the process of getting them takes less than 20 minutes, but you have to wait for them to become pending, which usually takes 2-3 days, then you have to wait 30 days for them to go from pending to your account. (you can see when they're pending.

I guarantee you that you will get money.

@Techno Jr. - No trades. Yin is reselling for me, I'm the one selling this e-book, though.

Yes. It's blackhat.

Another question.

If this does not work, can I get free support for it?

Can I get the V2 you guys are making for free too?

Would be free support, and yeah I'd assume you get that free too. \$15 is kind of costly for eBooks on HF, so I'm assuming we'll give V2 for free.

Lounge = stupid -reppers and flammers/trollers.

Message a friend = already tried.

So why does it have to be exactly \$15? Can't you accept a personal payment, or make new payment button?

Yin.. Dartz did not get any resales rights from the the original author. I have spoke with Carlos and Dartz was suppose to only sell v2. Original author tried to argue with Dartz about this and Dartz didn't bother removing his thread. Please note Swagbucks owner closed Dartz swagbucks account and posted on his thread saying that his account has been closed and Dartz quickly removed his reselling thread. Please be careful.

Yin - May 9, 2010, 9:19 am

<https://hackforums.net/showthread.php?tid=400824&page=6>

Where is it deleted? His thread is still open. I also doubt the Swagbucks owner has a HackForums account. Dartz has also put extra information not in the eBook as the eBook seems outdated in parts and he has included a text file in his sales for it to be clear to the buyer.

Very_Special_Helper - May 9, 2010, 9:36 am

I'm sorry Dartz but i'm going have to take action from this ebook from being sold. Last time swagbucks got your email to close your account and yes they can take legal action against you for selling this since they have your ip address and might have your real address on your suspended account. - <https://hackforums.net/showthread.php?tid=400824&page=1> you have lied so much just to get the money and everyone believes you.

If you're the one that made the eBook, then you're the one that's gonna get fucked over by the way. It's kind of obvious, look at the facts.
