Nope. PM me, we might be able to make a deal

SequenceInitiated - May 16, 2010, 1:06 pm

Just want to point out...

Psykiller (Botkiller) CANNOT Kill this bot. I don't want to go into too much detail on why it cannot because then it will be given away, but it is imposable for this bot to be killed by Pyskiller without Psykiller or w/e being noticable.

-Dartz - May 17, 2010, 6:13 pm

Thanks for pointing that out. I didn't know that.

Buy this now guys!

go0nz - May 27, 2010, 2:14 pm

Hey, still selling this? If so, I'm interested in the source code!

Btw, you make each bot unique so that the detection rate doesn't get detected on every customer, or just 1 stock? :)

johnmaylives - May 27, 2010, 5:56 pm

Dartz are you willing to sell ? It seems you dont want to sell :D. I sent pm already, will you look ?

-Dartz - May 27, 2010, 6:04 pm

Okay, if you want to purchase, only selling source code for now!

Only doing trades, but you can order the thing for a trade, so it shouldn't be a problem.

johnmaylives - May 28, 2010, 7:28 pm

I bought the Source, thanks for Dartz.

Who can help me about source? Who has it ? And some missing DLLs. Please contact me if you wanna help me :(...
