You do not appear to have set an end date, anyway good luck to all.

Xuna - March 6, 2014, 1:16 am

I've been a great and HQ member on this forum, i've helped people who could find out something and such. I want to be on the Green site because it just means so much, you are getting more inbox which is really usefull.

Fatboy Slim - March 6, 2014, 2:47 am

Tip to contestants.

Double check your post for grammar or spelling mistakes.

Keep in mind OP will look at everything, warning level, reputation, etc.

Make yourself look HQ; a smooth avatar and a simple signature will appeal to the eye.

Follow OP's guidelines, don't post in another format, copy- and pasting is not the right way.

Keep these tips in mind when applying for the contest.

Best of luck to all users.

I want to be able to use some of the features that upgraded members have, such as posting more than 25 posts in the lounge and posting in the SRPP section.

My post about why I should get upgraded to l33t.

Notable thread:

<https://hackforums.net/showthread.php?tid=4061088>

Why do I think I deserve it?

I have been on HF for a long time now (since 10-16-2013) and learned quiet a lot. I'm trying to learn how to make money but it's not working really well. ?
I study IT, and I game a lot.

Why should you upgrade me?

I think It's time for me to get an upgrade since I'm on HF for a long time, made HQ posts, did a giveaway and respect other members.

Something I want to tell [<https://hackforums.net/member.php?action=profile&uid=1763815>]Syrah [/url]:

I really appreciate that you are doing upgrades for other members that do not have the money to upgrade themselves.

Thanks in advance,

Hulk HF

?lex - March 6, 2014, 12:08 pm

Why do you want to be upgraded? Because I deserve the upgrade, and I'm trying really hard to help and contribute to the community.

What have you contributed to HackForums? I have wrote a lot of tutorials, I'm doing free graphics for our fellow members, helping around the begginers section, and.. pretty much everything.

You can see that by browsing my threads/posts.

And, yes I have been accepted as an ub3r long ago, but I didn't have the money to buy it.

Thank you for holding this contest.

x0n - March 6, 2014, 12:32 pm

Hey I go by the name One_Freed0m,

I joined hackforums, to learn about hacking but instead I learned about coding & helping people out.

What I enjoy the most is that when I help people out, It's really nice to see people succeed.

I am not the kinda guy that charges people for help.

All my services are free, and will always be free, It doesn't really matter if i have green apples etc..
as long as people respect me and I respect them.

I help all the kind of people that I can help, Doesn't matter if you are l33t/uber/normal.
If you need help I will try everything to help you out.

oh and btw, Just cause peopel have Ranks,or good rep doesn't mean that they rule the world. They
are only ranks and numbers.

I won't abuse my powers, like some people do, I will alway stay the same One_Freed0m
No matter what.

The reason im applying to get uber is couse I won l33T on a contest, and I want to win ub3r aswell,
in this way I can save money and maybe host a l33t/ub3r contest myself someday.

I didn't feel like making a "epic" entry like other people will make but I tought I'd give it a try.
Couse you never know.

Why do you want to be upgraded?: So that I can +3 and use some of the other extras.

What have you contributed to HackForums?: I have contributed a lot of help in the eWhoring
section and appraising.

Why do I want to be upgraded?: I want to be able to help people more, because I will have more
credibility. Also I would be able to apply for more things through out HF. Another thing would be the
ability to personalize my account better with a proper signature.

What have you contributed to HackForums?: I have put out a couple of tutorials for gaming and
modding. I have given good feedback to people that are not doing the best. I try to help people as
much as I can.

I hope to win this and Good Luck to all who enter.

RelationShit - March 6, 2014, 1:07 pm

I would like to play a role in this contest.
I hope I can win or whatsoever.

I like this forum here and I've tried many contests for winning an upgrade without luck, but I'm happy for the winners though. I can in no way upgrade myself since I have no incomes and am a student. So if I could win it for free on a forum I love, that would be a great bonus.

Why I deserve it? To be honest I don't even know. There are so much people out there who deserve it more, but I believe I do a well job at being kind from heart and treating people with respect; in a honest way. My reputation has been green here so I'm not that LQ I guess you could say.

I gave away free subs and likes before, and my most recent giveaway was a spotify giveaway where I gave 20-25 spotify premium subscriptions away. (Via thread & PM)

I have a wide variation of experience in relationships and love based subjects so anyone with problems can PM me, I try to reply to threads sometimes too. I also try to be a little active in the iOS section.

I can't think of anything more to say than this: thanks for this great giveaway OP! (; and I wish good luck to EVERYONE! :)

VOUCH for my boy Peanut, Really sick and nice guy that does more than help many people on this site! Keep up the great work man!

Chance The Rapper™ - March 10, 2014, 9:32 pm

Why I want to be upgraded: I would like to be upgraded to l33t so I can contribute more to HF. With the ranking if l33t, I will be able to help people without them having to get a second opinion somewhere else. If I am l33t, they wont go spamming for ub3rs or l33ts because I would be a more trustworthy source to the HF community.

What I have contributed: During my time with HF, I have grown stronger mentally. This has helped me think outside the box and helped me solve problems in unique ways. HF has given me a mental advantage over many people in the online world. With this advantage, I have discovered unique ways to manipulate people to get what I want. With L33t, I hope I can spread this advantage throughout the community. When I started off at HF, I was an ignorant skid. But this community has helped me develop as a person, and has helped me achieve my goals. Ever since I began learning more and more terms and what they mean, I have become more HQ. I have posted many helpful responses to peoples questions and have been trying my best to help everyone out.

Thanks for the contest and I wish the best of luck to the other users.

I vouch for Mr. Peanut, as all of the other users here have.

He might not giveaway notable items or contribute tutorials but that is all covered by the friendly help he always strives to offer.

I met him when he first joined, when most users don't change their personality and don't understand being HQ and all; and let me tell you that it was like I was always speaking or reading about a staff member. Top notch.

Why do you want to be upgraded?

What have you contributed to HackForums?

I'm a super old non-upgraded member.

I've helped a lot of people with their iOS/Android phones, crypted member's RATs for free when I had a paid crypter, as well as helped a lot of people with their RuneScape stuff.

Redemption - March 11, 2014, 1:08 am

Why do you want to be upgraded? I want to become L33T because you get more respected. Also I want a bigger PM inbox because it's not that big.

What have you contributed to HackForums? I help people with rat setups, I also help people with virus removal. I'm not the best but I do know more then a average user.

- I personally feel as if it's something I've earned! I'm sure most people on this forum have more money than me, but I make up for that socially. I've only been around for 3 months and I feel as if i'm kicking ass. 54+ rep, 0% warning level, 800+ posts, and many giveaways i'll list below! I'm not afraid to state my opinion, but I have mutual respect for everyone. Hackforums is a great get away for me, and is a place where I actually go to help pass time and better my knowledge in selective fields. I try to use as best of a vocabulary and grammar as I can, and plan to contribute when I'm in a better financial situation. I'm very eager as a person when it comes to something that I want/am motivated by! (Ps. sorry if this entry isn't organized, i'm not the type of person who keeps copies of entries, I wrote it all out from scratch! Hope you pick me with all the vouches i'm about to get too man! :D Thanks!)

DocBlaze's L33T to UB3R Application!

[img]http://x.hackforums.net/images/modern_bl/groupimages/english/ub3r.png[img]

I believe that I should get the Ub3r upgrade not because I deserve it, but because in my opinion, I offer something different to most other people that want it. Also, I have been here a long time, which is always a bonus I suppose and the Ub3r upgrade will allow me to get more recognition for my general help as that is what catches the eye of the newer members, and even some of the active members. I wasn't active much before I left for a while, but when I came back my activity has shot up a huge bunch. I am mostly in the "Innuendo" forum helping out other people with their problems, offering advice or just contributing as a whole.

I take pride in creating high quality posts and always make sure that my grammar, spelling and

punctuation are good in general, because I apply it to real-life and online too.

I'm a teenager currently taking Maths, Physics, Economics and History.

I love to play Basketball and Football and I am good at both.

I'm always looking for new ways to better myself or improve my knowledge on dealing with people or computers and things that revolve around them both.

I'm interested in sport, music, writing lyrics and most definitely gaming.

I really like the section Innuendo, because it allows me to become better with helping out with people's problems relating to their emotions, which allows me to understand people well in general and Rap Battles, because it helps me to improve my lyrics writing and I love this type of music the most, so it is always good to see people's taste in music. However, I'm interested in all forums because they can help to develop my skills and make me more diverse with the knowledge that I can obtain and apply to real life situations.

Contributions:

I have received positive feedback and appreciation for helping people out with sensitive topics such as in the Innuendo section and helping them to resolve them. I do it to show that there are still some kind-hearted people out there that genuinely want to help others, and to also make myself a better person in general because I know I'd want someone there if I have a big problem. I have also done some free services to assist the community also, and I am looking to do some more giveaways in the future, possibly even a contest such as this one.

Very recently, I have opened an Innuendo help-desk (<https://hackforums.net/showthread.php?tid=4112990>) to give assistance to many HF members in many different areas throughout their lives. It is going pretty well at the moment and I have received many messages and feedback about this service. I am also hoping to continue this service in the long-term.

why do you believe you should win this upgrade contest?:

I believe I should win this upgrade contest because it would give me the change to contribute even more then I already have. I know that I haven't been here long but if you check my threads/ post all of them have to do with helping someone, contributing or doing a giveaway. I will continue to do so once I upgrade. I just think it would be nice to be upgraded.

what have you contributed to the community since you have been a member?:

[Free Email With These Domains](#)

[Free Vudu Credit Giveaway](#)

[PayPal Giveaway](#)

I had one other contest but it got deleted for some reason. It pertained to getting free items on ebay and amazon and Skype credit and was a completely legit and was not a black hat method.

Other Ways I have contributed.

[Advise on hosting](#)

[Mybb Database help](#)

[VPS Help](#)

What will you contribute to the community when you are upgraded?:

I am going to continue helping others and doing giveaways. I'm not going to be one of those people who just enter contest to get free stuff. You can look through my post and threads and see that I am not that type of person. I enjoy doing giveaways and I think its good to give back to the community no matter what your member status is.

Thanks for the contest even if I do not win. Good luck to all who enter. Thanks OP.

I want to be upgraded because well it saves me buying it and it would make my stay on HF a lot easier tbh. I havent been on here long but i have already started doing giveaway and there will be a lot more to come. I will be writing a few tutorials and doing some more money giveaways after my current thread gets old :) Hope i am good enough.

I think I should be upgraded because I have been a member for over a year and I just can't find the money to upgrade myself.

I've posted quite a few threads in the grieving and the lounge, and I've helped quite a few people in my opinion.

Vouch for syrah. It'd be cool if you had something like that other contest host did: Regular to l33t, l33t to ub3r, or ub3r get the gift award, or something like that. But all in all, it's nice of you to do this. Thanks!

Why do you want to be upgraded?

I think I deserve L33t because I have been here long enough to know the rules/my way around the forums. I want to be able to contribute more to hack forums, via rep/respect level. It would be sort of an honor to have L33t. I'm a very respectful member. I don't scam, and I like to help people to the best of my ability. Even though I am limited with most.

What have you contributed to HackForums?

I have given perfect money in free giveaway section , and i have helped many with their doubts cleared

Thank you sir

AUsefulGuy - March 15, 2014, 8:09 pm

Hey, I'd love to be upgraded to l33t! I've done signatures and avatars for many of the members on this forums, and have also does graphic requests for many people. I try my best to get any request done perfectly and to what the person wants. I want l33t now because I want to have more PM space, change my username, and to be able to customize and advertise my business through my signature. I would love if I get chosen for this, and thanks for doing this giveaway!

Why do you want to be upgraded? I want to be upgraded because I like HF and I want to be able to see the upgraded sections. I also want to be upgrade because I do giveaways (5+) but for some reason they always seem to get deleted even though I manage to give stuff away to everybody. I am also experienced with Social Medium's

(Instagram, Snapchat ,Twitter,Aim) and I also buy/sell alot so being upgraded would let customers know I'm legit

What have you contributed to HackForums?

I have done many giveaways and on top of that I've given away unknown methods on how to secure Xbox Gamertag's, how to get turboed/jacked tags back and I probably the best thing I've ever given away was a Tumblr jacking method. I also troll a bit as you can see from my rep but also a lot of it is from doing legit deals with other members and from being a helpful guy.

Also As I stated above I am a Sm's seller on another site and since many of those members are also here you can feel free to inspect my rep to see I am a legit member and I also like to help members with their personal problems or forum related stuff. If you would like vouches from respected members feel free to tell me as I will put your upgrade to good use.

#Havoc - March 16, 2014, 12:58 pm

Why do you want to be upgraded?: I want to be upgraded because I've been a member of Hack Forums since mid 2012 and I'm still posting eagerly today. I believe I deserve it as I give things away constantly and always try to contribute to the forums in a positive way. I have 0% warning level, and a pretty much perfect rep. (One negative rep from a member that was banned and negged me for no reason.) I've gotten accepted first try into ub3r, Complexity, Respawn, and the

Empire.

Why do you want to be upgraded?

Hello, My name is Complex, John in the real world, First of all, deep down I want to thank you for your generosity to hold this contest for the members of the forum, Now.. I'd honestly appreciate winning this, It'd mean a lot to me, I'm new here on HF and would love to experience a better shot around the four, then my current status as a "Non" UpGraded Member. I want to feel the wisdom of being a better member around here and achieving more things then I can do currently. Overall, It would mean a huge ton if I where to be upgraded from this fantastic contest, Thank you for hosting this, Have a good day!

What have you contributed to HackForums? I'm new here and haven't done much yet, I recently applied for Legion and hope to make outstanding tutorials around the Forum to help member and soon do giveaways like you when I become more stable and familiar around the forum, I hope you take this into consideration, As I said, I'd take it with pride and show you in the future how much I deserved it.

Why do you want to be upgraded? To have a yellow username

What have you contributed to HackForums? My eternal love

Cathal - March 17, 2014, 12:31 pm

Why do you want to be upgraded? I want to be upgraded to L33T for several reasons. I would love to be able to give a little back to the community. In my two years here, I have met so many users who deserve more than just my acknowledgement. Something as simple as a little rep can really make the difference - it gives me the chance to tell others of my experiences with a user, and in a way which sticks to their profile forever.

This goes both ways, I've also met many users who simply shadow me because of their

usergroups, and leave permanent stains on my profile for others to say, most of which are written in times of confusion. I would love to be able to warn others of bad experiences, and/or toxic members.

What could I achieve with an upgrade? Upgraded members have earned themselves a bit of a bad reputation in the eyes of regular members. Of course this doesn't apply to the entire populous. Personally, I have never experienced this, as I have never given reason to be subject to abuse. However, it would be simply ignorant to pretend this distaste doesn't exist. I would love to have the opportunity to help others out, and be 'that guy' who not a dick, and just wants to help. I love helping others, and having that pretty colorful name might just help me to stand out more around the forum!

What have you contributed to HackForums? I rarely make threads on this forum, because I find that almost every topic is covered in some way in past threads, and I refuse to regurgitate information already provided by others. However, here are two recent threads I made.

[\[Tutorial\] Object-Oriented PHP with mysqli Extension](#)
[\[Challenge\] Root Me \[Beginners?\]](#)

Unlike many other members, I don't believe in posting content unless I feel I am qualified to post about it. ie, I'm very much against 12 year old "e-whores" making hacking help desks. If you're not in a position to teach, don't teach! Anyway.. My only real skills lie in web-app hacking and PHP development, as you might have guessed from those threads. It is in these areas I have dedicated my time and efforts to.

Message to OP: I'll keep this short and sweet, and try not to be a lick-arse. Thanks for hosting this contest - that's 20 quid you didn't have to spend, and it does show your dedication to the forum.
