Thread: [I think I have autism...](#)

NOAH - March 6, 2014, 7:39 pm

Alright I know this may be a odd thread..

But I've been thinking for a while, and well... I may actually be autistic.

Alright, so my whole life I've disliked human contact. Even eye contact, I find it hard to stare people in the eyes... I can touch and communicate with animals, just not humans. I have hard interacting with people at all unless I know you well. There's about 4 people that I will actually smile at. That I feel comfortable around. These people are, my girlfriend, my best friend, my mother, and a few other friends. If I talk to other people I almost have a panic attack. I'm always worrying what they are thinking about me. If I look good enough. If I'm talking right (I sometimes stutter, something that's recently developed... I don't even know why.)

A few other things I'll point out that show autism is I'm intelligent. Hell I'm fucking smart, I'm not gonna lie. I have good and bad grades. 2 F's and 5 A's. I'm in 5 AP classes. But school isn't a measurement of intelligence. We all know this. I have a semi-identical memory. I remember the little things and these little things help me remember the big picture. Well that's how my doctor explained it when I was 8.

Also, when it comes down to the communication thing. I'm fine when I text or message. Its just in real life that fucks me up...

So do you think I should go get tested for Autism?

Am I just socially awkward?

This is not a attention whore thread... If you think it is then don't post or read.

Programming - March 6, 2014, 7:42 pm

Hehe, you're just anti-social man. No need to worry.

Stealth™ - March 6, 2014, 7:42 pm

You don't have autism... You're just a little teenager with social anxiety, nothing some xanax can't cure :P.

And don't say that you're smart when you have 2 F's, lol.

Snag - March 6, 2014, 7:42 pm

You don't have Autism, you are just socially shy and have a low self-esteem.

If you need someone to talk to I'm here for you man. I'm just a PM away ?

Redemption - March 6, 2014, 7:43 pm

I'm the same way. I think it's anti-social tbh.

NOAH - March 6, 2014, 7:43 pm

School is not a proper measurement of intelligence.

I do bad on school work simply because of stress and shit.
Give me a test and I'll ace it.
I'm a weird person.

Faceless Enemy - March 6, 2014, 7:44 pm

Have you caught the autism, MareepTheSheep?

~Jay~ - March 6, 2014, 7:46 pm

Most people who have autism can't recognize the fact they have autism.

IanConnor - March 6, 2014, 7:46 pm

Definitely not autism.

Definitely not "anti-social".

Chances are you have some sort of general anxiety disorder, which is very common. Though yours may be a bit more severe than others.

Infer - March 6, 2014, 7:47 pm

Maybe you're just anti-social but everyone here including myself, is just guessing. Go see your doctor to get professional help

12Chainz - March 6, 2014, 7:48 pm

Go to a psychologist(can be expensive if you don't have insurance, but worth it for your sanity), they'll be able to determine if it's autism, or if your suffering from something else.

Stealth™ - March 6, 2014, 7:48 pm

Really, then what was the SAT/ACT created to do?

I can give you a test on advanced calculus in quantum mechanics and I bet you that you won't ace it.

IanConnor - March 6, 2014, 7:51 pm

I think what he means is, if you're failing a class, sure it could mean you're stupid, but not everyone who is failing is stupid. A lot is because of missed homework, which can be caused because of stress.

Stealth™ - March 6, 2014, 7:54 pm

For anyone, stress shouldn't be a factor in missing homeworks.

How does that even make any sense? I'm stressed due to all this missed homework, so I'll just miss some more and hope to be less stressed.

Psilocybe cubensis - March 6, 2014, 7:55 pm

I have Aspergers and you sound just like me. The good thing is you can sign up for crazy checks :D free monaaay!

SIM-1676753 - March 6, 2014, 7:58 pm

This is common. Just relax a bit and don't stress out too much :D

device - March 6, 2014, 8:03 pm

He's right. Best option, but I hope you will find a nice one that helps you and make you feel more comfortable about yourself. Don't worry, I was the same as you in many ways, scared to talk to people, I had really bad grades but I really gave attention to small things and all of those small things could remind me of something more important. In my case, everything I see reminds of something else, I can't stop thinking !

IanConnor - March 6, 2014, 8:04 pm

Well I have ADD so I'm not really sure I can relate like him, but I do have anxiety and very bad stress management problems.. but for me it works like this:

Oh hey I got an assignment, oh it's easy Marketplatz, go do fun shit now since you're distracted and you can do it later tonight at like 7PM.

7PM: Oh hey I should do the assignment now.. well meh.. it's only 7.. ill do it before i go to bed for sure.

11PM: I should probably start my homework, but ugh it's 11... fuck it I'm just gonna sleep.

And then you wake up, and are stressed because you wanted to do your homework, but can't focus so you couldn't... then the next day, you get more assignments, as well as the missed assignments, and then the cycle repeats over and over again.

RelationShit - March 6, 2014, 8:15 pm

Maybe you're deeply focused on what people think.

Who the fuck cares m8? As long as you find yourself looking sexy as fuck in the mirror you're good.

If you don't, do something about it. I guess you're a male, so go work out. You can do this at home too. Or get a new haircut that looks dope, hot.

If you're going to care so much about what people think, you will never be able to please all of them. You will never be able to be happy, etc.

Don't care (too much) about pleasing people, care about pleasing yourself. Love yourself. You're

one sexy mothafuck bro. Kiss that biceps of ya. They are big.

I don't care if this reply is weird, I'm just trying to help OP.

A little ego is actually selfconfidence in my eyes, so. Better than not liking oneself and being depressed about it.

OP, you're the best. You know that? No? Now you do. Don't forget it or I'll text you twenty times a day about it. I got your phone number. Remember that day you were drunk and gave it to me? No? Ah ok.. But I'll text ya. Till you're sick of it.

So, accept it. You're cool as fuck.

I wanna be in your shoes for looking that good and having that brain and character qualities.

No single fucking sarcasm is used here.

Also, you can PM me anytime about problems with your girlfriend for example. I'm better at helping in that category than this block of text here. See my name.

Sad Astronaut - March 6, 2014, 8:18 pm

If you're thinking about getting a serious answer from a forum with mostly immature 13 year olds, this is the wrong place. It's hard to play internet doctor, especially when no one here is an actual doctor.

Your best bet is to see a doctor!

Stealth™ - March 6, 2014, 8:29 pm

(Mar 6, 2014 09:04 PM)Marketplatz Wrote: [\[CITE\]](#) Well I have ADD so I'm not really sure I can relate like him, but I do have anxiety and very bad stress management problems.. but for me it works like this:

That's nothing but common procrastination. Once you figure out that every grade affects the college process, you won't procrastinate any longer. You need to change your priorities.

Your best bet is to see a doctor!Who you calling no-doctor.

We even have cops on here. A lot you could say.

And bodybuilders. And hackers. And people who blow up jails.

And all of that!

Nevermind you're right.
The cops part is true though.

Echoz - March 6, 2014, 8:34 pm

I'm sure that you're not autistic! But even if you are, there are plenty of geniuses in history that were autistic! Wolfgang Mozart, Nikola Tesla, Albert Einstein, and Thomas Jefferson are all allegedly autistics! There's also this child prodigy named Jacob Barnett. I suggest watching his TEDx video because I found it very interesting and very cool!

oblivion02 - March 6, 2014, 8:42 pm

I would consider you to be introverted my friend.
