Just search up botshops here on HF. I would recommend Snizz or Toxics botshop.

If not either of them you could give Bull a shot.

Why ? Is it because they scam you? Or too expensive? can you elaborate?

RatMonkey - March 8, 2014, 7:55 am

go to redbulls botshop..fresh from epack ;)

because they most likely will be botkilled / reused. Make your net discovered. I guess.

You can still buy some from an xpack to see the exec rate, or to test your bin before spreading.
