DeadlyVermilion - May 9, 2010, 3:19 am

Bump for him. Great Program, Seen it in action and have personally seen the Source. It's fucking amazing.

fiber - May 9, 2010, 3:32 am

let me guess... vb.net?

Orgy - May 9, 2010, 6:59 am

Uh, what exactly is "hardcoded" into it?

p00jan - May 10, 2010, 2:44 am

Hardcoded means 90% of the whole crypter is coded by me, nonetheless! (Btw, the new encryption routine + RunPE engine is literally, hard to be coded)

Thug Life - May 10, 2010, 2:53 am

Looks like a pretty decent crypter, Love the gui good luck with your sales.

Metal Tiger - May 10, 2010, 3:43 am

I just find it funny that you cal this crypter a 'beast' and make it sound all macho, then give it a gay name like 'Sunshine' Crypter. Lol.

Looks good though.

? Nonononono.... Who cares about the crypter's name. I made it in dedication to The Land of The Rising Sun [JAPAN]!

GUI is only for you, but for the crypted file, who knows or even cares with what "macho" crypter you use it. As long as it's FUD and does what it suppose to do, that's fine with me. (I do believe other people think so too)

Performance is performance. GUI is just for fun.

Xero™ - May 10, 2010, 10:20 pm

looks very nice bro..... ithink i give it a chance

S?Nk - May 10, 2010, 10:33 pm

I vouch for PooJan, He coded me a crypter a while back (like few months ago) and it stayed FUD for over a month of heavy use.

p00jan - May 11, 2010, 3:35 am

Thanks for the vouch, SaNk, I love your stuff too.

Gonzo - May 11, 2010, 3:37 am

This looks sweet. I wish i had paypal money lol. When i do ill buy it.

p00jan - May 11, 2010, 11:55 am

Thanks mate. I promise you, it's worth it.

SpK - May 11, 2010, 12:03 pm

"New RunPE engine by p00jan"

I lol'd

p00jan - May 11, 2010, 12:10 pm

What's so funny? This crypter uses only 2 API calls... It was heavily modded.

delete-delete - May 11, 2010, 12:13 pm

coool program mate:) gl selling!!!

p00jan - May 11, 2010, 12:49 pm

Price reduced from \$20 to \$15

hxkd - May 11, 2010, 12:53 pm

Then it is UD in a few days :S

Also dude, dont leave the MD5 hash and the SH1 hash in the pic.

S?Nk - May 12, 2010, 2:47 am

Bump, I wanted to bump his thread so you guys can get a copy of his great product(s)!

p00jan - May 12, 2010, 8:50 am

Thanks for the vouch, Mr. SaNk™!

chopsticks - May 29, 2010, 9:19 pm

Looks very nice. Any feedback?

Jendro - June 2, 2010, 4:31 pm

Is it still FUD? How many copies have you distributed?

EASTBAY LOC - June 2, 2010, 5:32 pm

Im gonna buy this since its only \$15. If you can provide me a stub package then I will throw in \$5.

PM me.

Embrace The Martian - June 2, 2010, 10:36 pm

Would like to buy when you get on MSN.

Thanks.

ZhivagoMods - June 2, 2010, 11:07 pm

are you using unique stubs for each buyer. If it is then i'll buy

Dark Sabotage - June 3, 2010, 8:28 am

Great Program, Seen it in action and have personally seen the Source

[K???TiK]™ - June 3, 2010, 11:27 am

Contacted you on MSN.

Let me know when you're available.

SpooKy - June 3, 2010, 7:44 pm

Does this work with 64-Bit?

EvilGnomes - June 3, 2010, 10:11 pm

im interested if your using unque stubs for each buyer and if it works in x64 bit im in. 15\$ isnt that much.

hmwhalo124u - June 4, 2010, 9:04 pm

hey can you make new stub for me?

sweetman94 - June 6, 2010, 1:41 pm

do you take the payment via paypal and does this work with istealer 6.3 and cybergate

kbhawkman - June 6, 2010, 2:25 pm

Cool man, that crypter was a Bright idea.

SirBoss - June 6, 2010, 2:26 pm
