Thread: [Help me buy accesories for my airgun](#)

?ă?ž?® - March 9, 2014, 10:58 am

So i just bought this airpistol

http://www.amazon.com/gp/product/B0070P0G66/ref=oh_details_o00_s00_i00?ie=UTF8&psc=1

ive decided to use this ammo type

http://www.walmart.com/ip/Crosman-Powershot-.177-Caliber-Fast-Flight-Penetrators-150-Count/20753521?action=product_interest&action_type=title&placement_id=irs_middle&strategy=PWVUB&visit_or_id=69466154835&category=0%3A4125%3A1107532%3A1080344%3A1080386&client_guid=acd720b3-4b06-45d2-9fa4-c7f5dd51bd00&config_id=0&parent_item_id=20753521&guid=176f7d4a-b546-474a-b85e-d17fb8892ccc&bucket_id=irsbucket013&findingMethod=p13n

and i have a sniper scope from my bb gun i want to mount on it. I'm new to pellet guns. Yes i know this sounds ridiculous but it will be cool when i mount a long range scope on it. I need to buy a mounting rail for it that's compatible for this gun, can someone help me pick one out? Its a 3-9 x 40 scope

Get a laser sight.

If you want to do the illegal way and want the sight to reach far, get a green one but it's not recommended.
