Thread: [Shawn's League of Legends Riot Point Shop. NA & OCE Only \[Goth Annie\]](#)

Hi Im Shawn - March 10, 2014, 4:37 am

I have recently been getting Private messages wanting some codes, so since I don't buy the codes before hand I wait till I get the money to buy them and then resell them. So I came up with a decent way to make a Auto-buying system for these codes.

If you wish to do this, please do this.

1. Send the payment to this email using PayPal:

Code buydigitalriotpoints@gmail.com You can put the payment as Services / Goods if you pay the fee. Otherwise, please send it as a Gift.

2. Once done, please add this to the subject line

Code Digital Riot Points Code as for the note please add the following: Code HF Username / UID
This is so once you pay, I can easily find you and Private message your code.

All deliveries will take up to 24 hours to 48 hours. If I haven't gotten your code within that time frame then I will offer you full refund.

My other service(s)

[Shawn's and Eminem's Inactive LoL Account Shop! \[Cheap and affordable!\]](#)

[Shawn's Rare LoL Skin Shop NA & EUW & EUNE & OCE \[Cheap and Affordable Rates!\]](#)

Today I will be selling League of Legends Riot Points. Before I get started these are codes, so there is no carding involved and these are obtained legitimately. These codes will only work on the North American Servers and OCE Servers.

Pricing will be listed below. These are the final prices.

4140 Riot Points = \$28

6900 Riot Points = \$42

1380 Riot Points = \$9.50 (1 code)

Some more information:

This is great for smurf accounts. You get RP + 20 champions and a free skin.

You will unlock the following champions when the code is redeemed:

You will unlock the following skin when you redeem the code:

Payment will be Via BTC or PayPal. If paying with BTC please Private Message me so we can work out a deal. If paying through PayPal, you will be required to send a note / subject on your payment. Failure to do so will result in a refund and I will not deal with you.

Terms of Service After payment is received you join me in Teamviewer and use "screen share" so I can verify that each code is working. Replacements for non-working codes will be provided free of charge.

You pay and I send you the codes via PM or E-mail for you to use at your convenience. Since I am

not watching you apply the codes, all sales are final and non-working codes will not be replaced.

I will not go first, unless your deemed more trustworthy than me. All sales are Final, meaning no refunds.

I have a right to change the terms of service at any time.

Offline till tomorrow. Supplier ran out of codes

NoxusGullotine - March 10, 2014, 5:56 am

Stopping by to say you got an awesome shop here. ?

So, if I redeem one of those rp codes, I am getting those champions and the skin. Right?

Indeed it is, 20 champions + a 975 skin and 1380RP. It is a steal.

MysticParadox - March 10, 2014, 7:17 am

So it's not actually buying RP? I was thinking we'd actually get 4k RP :/

How much is the bundle?

Quote:4140 Riot Points = \$28

Its listed. Each code you redeem gives you 1380RP.

You are buying RP. Just those are the things that come with it when you purchase RP from me. You get 1380RP for each code redeemed meaning I would send you three codes to get your 4140 RP.

OH, okay. Makes sense to me now :) So we'd get 4 of those bundle codes, each with 1,380 RP?

Correct. Each code you redeem would give 1380RP, Goth Annie Skin, then 20 champions. So if you want it just for the RP. Use it and don't worry about the champs / skin. If you want it on a smurf it'd be worth more since you get 20 champs + a goth annie skin and RP.

MysticParadox - March 10, 2014, 3:01 pm

When will this be available for purchase? I can't wait c:

I sent the code you way, please post here with proof that you redeemed the code and it did indeed work.

I am online and ready to take sales if anyone is wanting some nice RP.

Froggy - March 13, 2014, 6:38 pm

I received the code and everything worked flawlessly!

I accidentally closed it in excitement after I redeemed the code so I was unable to take a screenshot of the list of things I received from the code, but here is a screenshot of proof that I now have the Goth Annie skin included in the code:

I was sleeping the whole day, had a rough day and hardly any sleep. I'll update you all tomorrow whenever I have some codes, more than likely I should have them. If everything goes as planned should have some around 6-7PM Est time.

Etho - March 19, 2014, 5:52 am

The Digital Collector's Pack for only \$9.35! I'm in, hit me up when you are selling.

hooters851 - March 21, 2014, 5:38 pm

Clear your sent messages / inbox. Then go into the trash bin and delete all your messages. Also I might be closing down since my supplier is hardly here :p. Also he is on at random times when no one is on, I don't feel like buying the codes until I have the money.

So if anything I might have to make a Auto-Buy system, then people would have to wait 24-48 hours for delivery.

hooters851 - March 21, 2014, 7:04 pm

i ment like i needed more post but i fixed it, so i cant buy it?

Vouch. Highly recommended got my code fast.

Hi Im Shawn - March 22, 2014, 12:48 pm
