Thread: [Torrent Seeding - Premium 1 GBs Line](#)

?Fetz? - March 10, 2014, 4:48 pm

Hello HF, Fetz here, Today I am offering Torrent Seeding.

I am seeding on a VPS with a 1 GBp/s line.

Here is my server's speedtest.net results:

Prices:

Service is \$0.25 per 1 GB uploaded.

I measure bandwidth with Deluge. I require a payment before I start uploading. For instance: If you want 4 GB's of upload I will require \$1.00. Once your torrent hit's 4 GB bandwidth I will stop seeding. \$1.00 is minimum payment due to Paypal fees. (I also accept bitcoins)

Vouch, legit and fast.

Will be buying again soon.

This service might not be allowed, I was planning on doing a similar service and opened a thread asking if it was allowed, still no answer from an Admin/Staff though.

It is allowed.

Why wouldn't it be? Torrenting nor seeding is illegal.

It's under dis-allowed blackhat activity, and torrenting illegal downloads is, which is the majority of torrents.

Torrent is just a type of P2P download. Is very handy.

Hackforums isn't an illegal site. Although many users on it participate in illegal activity. This does not mean Hackforums should be banned from the internet.

?

While I may (or may not) seed illegal files, I am not offering it here.

In terms of bytes, I believe a h0ly is bigger than a fr0st :D

Anyhow, I am looking to launch a service that will require me A LOT of seeding of various music files; the music files will not be copyrighted, mainly free online mixes. I was wondering if you have a cheaper + bulky offer? I might just look for a VPS that offers unmetered bandwidth

?Fetz? - March 14, 2014, 7:38 pm

Depends. You would have to hit me up on Skype so we could discuss it.
