So i am wondering if any of you that could help me out to make some money per week like 100\$:)

If you would like to share any simple plan without like 50 pages to read go ahead:)

I would appreciate it.

And i would make you this deal if i make 100\$ i will give you 10\$:) and every month you will have 40\$ in your pocket:)?

Honestly this may be a very hard thing to do and is easier said than done, but seems like you're looking for an ebook which you can find here [Ebook Bazaar](#)
Goodluck ?

I suggest not listening to the user ?Mephisto above me, you will just waste money buying those useless eBooks.

No one will spoonfeed you earn that much and for 40\$ month. By looking at your post, you also need short method and lazy to work. I highly doubt you would be able to make that money. Its not that easy. Learn by yourself and try to improvise. Dont expect easy money. It needs hard work.

I think you should start exploring CPA/PPD networks. That might be your best shot but remember it needs work to be put in. If you do well, you might earn way much more than that.

Cashle might make you a couple bucks. Other than that look into something that involves time and effort and don't ever buy an ebook
