Does anybody know the link to this one? You can pay for votes using credits etc.

Can you do custom deals? Like 50 votes, 1k views? If I buy I just want something to give me a little boost, nothing to crazy.

I don't need any votes, I don't want to buy any. I just wanted to see if there actually existed one.

RedAlert380 - March 20, 2014, 1:46 pm

SwiftVoter.com does this and it's pretty cheap.

PMC botting wont do any good at all.
It only get you more votes but that's about it.
Your playerbase wont go up.

Also: Ever considered how old the PMC visitors are?
Most of them are quite young and like to troll now and then.

I suggest to not advertise at ALL on PMC.
