Thread: [I need a stronger stresser\(ddoser\)](#)

creationbot - March 14, 2014, 1:19 pm

I'm just trying to take down simple home connection IP's, but the one I paid for is so god damn weak.

'http://getsmack.de/'

is the one I'm using, and it's just not strong enough.

Can someone please tell me a strong booter/stresser, thanks.

getsmack.de is not weak Imfao. I`m an actual customer and it is one of the strongest booters out there as far as i`m aware they`ve been having difficulties lately and power is weaker than usual. If you are in urgent need of a booter then i would recommend titaniumstresser.net or the paid version of ipstresser.com. Divinestresser packs a good punch too.

How hard does getsmacked.de hit?

Is it a good host?

If you need a booter start your search there.

This thread shows power of booters listed, and I add more weekly.

This post is like four months old... I don't thnk it's still relevant.
