Thread: [Sharing SANS 503 Intrusion Detection In-Depth GCIA Certification.](#)

pwntoken - *March 14, 2014, 6:09 pm*

So, this place was eroded with the general ways of hacking and did not covered forensics via hacking. I uploaded some stuff from my repository to help people understand the value of these PDF files. You won't find these PDF's on major profiles. This was on a paid premium site which I managed to get through and was willing to share to the community here. If you appreciate, just post back a 'thanks' That would suffice. ?

Code <https://www.sans.org/course/intrusion-detection-in-depth>
For the description, if you wanted to download this. All are PDF's.

Code https://www.dropbox.com/s/97upyfz0s1iez7a/SANS503_GIAC_kernelcop.zip
If you wanted to download after reading the description above. ?

The link is dead could you re-upload please? I would really appreciate it.

Evanescent - *April 14, 2016, 9:47 pm*

May i know which site you are talking about ?

May be in PM if you don't wish it here.

EDIT : Didn't realize it is an year old thread.
