Thread: [Plasma HTTP - 1 year hosting/domain](#)

**Duuzi** - March 15, 2014, 6:13 am

So I'm selling my Plasma HTTP setup.

It comes with one year domain and hosting, with around 9-10 months left.

These are the stats:

I am open to offers. Depending on your rep and rank will depend on if I got first. I can also provide a log containing 5743 website credentials.

Still selling this! Cheap cheap!

Worth around \$175! Selling for about half, send me your offers.

**Ecasrev** - March 18, 2014, 12:46 pm

This is worth about \$80. Most members sell plasma http with a year of hosting for close to what the BIN from the seller is.

Worth around 175\$ ?

What are you crazy?

That's what everything was purchased for. No way do I expect someone to purchase for that. I'd only expect around \$75.

I am very interested in this.

I would like to see some more proof.

Send me a Private Message with more information.

I have payed this guy yesterday, and havent heard from him anymore. Be warned.  
If i dont hear from him in a few more hours i will report this as a scam.

Edit: Everything is solved so far...got my login and need to wait for blueshark to respond.
