Hello Guys !

I just found a new method to get many website traffic , facebook like , twitter following or anything else like this.

I found a glitch in the system, and with it i can easily reach the maximum token every day in a hour.

So here's the link : <http://www.linkcollider.com>

How to get many token :

First Method :

First Register on the site

Click to Post a Website and choose the traffic type what you need , like : Like , follow , website traffic.

Next go to Collect Tokens by Menu point and Choose Autosurf.

Start it and when its works Start Cheatengine and Choose your browser (firefox , chrome etc.)

Now enable speedhack and change it to 15.

You have to watch every site for 30 sec , with speedhack it's will be only 2 sec .

Second Method :

Go to Collect Tokens by and choose Twitter following.

Click to the best twitter site what gives you the most token (60).

Click it to 2 times and now its will popup and now click to Follow .

After 1 sec click to Unfollow and again follow.

You can click about 500 times to the same twitter site and you'll be rewarded all times.

F.A.Q

Q:What is the "token".

A:This is a virtual currency on the site , you can buy traffic or like with it.

Q:I'll be banned for this method?

A:No! I started using it two months ago and still works.

Q:The Link shrinker site will detect the source of the traffic?

A:No They dont , But you have to use Link Hider or post your link to Twitter and copy the link !

Sorry for my bad English , Good luck with the method.

Middle of the top of the site , you see Post a website , there you can add your site / page .
