Hello, I am fairly new to reddit. I was wondering if you guys have any opinions on reddit. Also if you can give me tips. I know how to use it I just need some input on what you think of it :) Thank you and have a great day.

Some parts of its community are cancer, some are not. But what do you expect from such a huge site. Good for passing time the content is all good usually.

I use to love reddit, I use to go on it every day. Then Idk what happened and I stopped going. You can find a lot of funny shit on reddit.

I visit r/trees, r/nofap and r/calmhands regularly.

Apart from those 3 I don't really go anywhere else on the site.

It's pretty much what it says it is "The front page Internet", it has a subreddit for just about anything. All the funny pics you see are probably from Reddit too.

There's a lot fucked up shit on Reddit and even more on 4Chan.

Every gaming sub reddit = cancer, and the league of legends sub reddit = super mecha hitler beating up kittens with cancer. Also the best sub reddit is <http://www.reddit.com/r/1337>
