Hi,

I have literally never heard of e-whoring before reading this thread, but I am intrigued and will challenge myself to pick this up as a total noob and make a boatload of CA\$H. I have TWO USA based beautiful black girls and one white girl who is a stripper, All three with very sexy phone voices and actual real sexy pictures and vids that they are willing to use in the pursuit of MONEY. Currently, my btc wallet (blockchain) website is down for maintenance so I cant purchase the e-book but..... As SOON as the blockchain website comes back online I will absolutely purchase. Since I am totally noob I will need a bit of help but I think I can do pretty well with this given the talent I have at my disposal. If anyone wants to help guide or tutor me I am willing to do a profit split or share on what we bring in. No BS and no games, I can show proof of the girls even have them talk to u if u dont believe. Just need help getting this off the ground and make it profitable. Thks

Spreading rats

Now I don't know what you were implying but i'll take it as you were implying we're making an Ebook package for the sole purpose of spreading RATs.

There was a member of this Forum and a customer of mine who has been identified but will remain unnamed who was sending the Ebook to members who had purchased it. I am led to believe this was binded to a RAT and highly discourage anyone accepting Ebook packages or any of my product listed on this sales thread from anyone besides myself or DrakeOVO. If you're wanting to be 100% sure it's one of us, PM us on HF.

I have never used a RAT and would never RAT any of my customers because I care about my reputation as a seller. DrakeOVO will not RAT anyone and only has access to my Ebook Package (Ebook in particular) through a download link and password which I gave him to give to members when I was asleep to maximize user-ability.

Yes. I am the god of PayPal, which sounds ironic because I was permanently limited for selling this kind of product. It gives you my personal method on how to win charge backs as well as avoid limitation. Probably the best part of this Ebook!

Hayley - April 3, 2014, 10:49 am

Purchased this to check out the VCW's. Both VCW's included are very good and most certainly unsaturated. The eBooks provided go in detail and are very well written and I would highly suggest this to any eWhore beginner. On top of that, the voice tool is something I find most valuable in this whole package.

He receives free shit then continues to be a skid by gaining access to the HWID database and giving me what he thought was my IP. Then he asks for help because his application wasn't working. I don't know about you, but to us, this is a big nono.

I believe that everything I have to be sold is much more profitable for the customer(s) if sold together, so I collaborated everything I now offer to sell into different priced packages.

Some Simple Math Will Show You That:

If you purchased the Ebook Bundle 1 for \$17.00 you're only paying \$27.99 for Two Unsaturated VCWs.

If you purchased the Ebook Bundle 1 for \$17.00 you're only paying \$17.59 for One Unsaturated VCW.

Although, these may not seem like great deals, those are highly discounted prices compared to what they usually sell for!

I hope everyone can understand my reasoning behind this package change, hope to see many new and old customers!

I can tell you the eBook is great, easy words, he uses examples from his experience and it overall feels like he cares for his customers, I did speak to him via text over skype, he responded really quick even before I bought the Package very nice member c:

Also, worth the money.

PS. I will be posting my earnings, I just gotta catch some sleep, ill post another post with earnings later c:

You could totally make your money back, with my help it'd be that much easier. ? Within 1-2 weeks, you can get a refund if it fails.

Packages have all been sent out, thanks to those who've purchased. The price of the most prestigious Ebook package available now and ever is about to increase, I've been running in the dough and I am less than \$70.00 CAD away from reaching my goal for tonight. After that point, it will raise by another \$5.00 USD.

Suarez - May 4, 2014, 11:15 am

Bought Amanda package, isn't that good! Chat loop 1 in the Flash VCW repeats after 7 (!) secs and stops with a laugh, and begins with nothing.. Sent Devour a message but not getting a response! I think this VCW isn't that good, and made more with my free VCW than this one..

Edit: Devour came with a good deal! He's a good guy and tries you to make off course your money back!

I replied... ? Thanks for your opinion, not much we can do as it's the flash. The video was created back in the day when I was still in this "transitional" stage. To be completely honest, just go into the chat and say you're giving him a 30 second tease and that's it. You'll make money off of it. The fact there was absolutely no "dedicated" chat loop and the Flash version turned out like that.... Exceptional.

Edit: Sent you another message, hoping to come to a suitable compromise.

Once again, I'd like to stress that for my safety and the continuation of developing and selling

products, we're not offering assistance nor purchases to those who reside in Finland. Finland is on our permanent blacklist, don't ask as to why because results will turn up inconclusive. If you're from Finland and are needing an HQ product, may I suggest going to another trusted vendor.
