L33t >> UB3R

I'm not going to be specific with what I'm looking for to upgrade someone. All I'm going to say is to impress me. Whether not that's a list of super HQ posts, a application, any of the above.

You can also nominate members for an upgrade.

No time limit, when I choose someone is when it ends.

Go!

---Edit---

Also, making a super HQ photoshop application means nothing to me, so don't waste your time.

x0n - March 18, 2014, 8:19 am

Hey I go by the name One_Freed0m,

I joined hackforums, to learn about hacking but instead I learned about coding & helping people out. What I enjoy the most is that when I help people out, It's really nice to see people succeed.

I am not the kinda guy that charges people for help.

All my services are free, and will always be free, It doesn't really matter if i have green apples etc.. as loong as people respect me and I respect them.

I help all the kind of people that I can help, Doesn't matter if you are l33t/uber/normal. If you need help I will try everything to help you out.

oh and btw, Just couse peopel have Ranks,or good rep doesn't mean that they rule the world. They are only ranks and numbers.

I won't abuse my powers, like some people do, I will alway stay the same One_Freed0m No matter what.

The reason im applying to get uber is couse I won l33T on a contest, and I want to win ub3r aswell, in this way I can save money and maybe host a l33t/ub3r contest myself someday.

I didn't feel like making a "epic" entry like other people will make but I tought I'd give it a try. Couse you never know.

<https://hackforums.net/showthread.php?tid=3923986> and there will be more

And if someone is doing something wrong, I always tell that person off cause, Im not afraid of a -3 / Neutral.

I speak out..

Where you will see me the most is in Webmaster Section.

This is where my entry ends.

Thank you for hosting this Op.

-Good luck to everyone.

I deserve to win the L33t upgrade as I know that I could become a very potential member to this forum in the near future. :Rolleyes:

I'm very helpful to others and wishes to conduct 'variety' giveaways soon :) ?

Adding to that,I really dont have the money to upgrade.

? I'm sure that I can contribute BIG to this forum in the near future maybe after march 22nd(Summer Holidays :D)!! ?

I have been posting in tons of upgrade contests like this one but still no luck as there are users who deserves it more than me!

I'm a boy who goes by the policy "Good Things Come To Those Who Wait!!"

[img]http://x.hackforums.net/images/modern_bl/groupimages/english/ub3r.png[/img]

Why I "deserve" it:

I believe that I should get the Ub3r upgrade not because I deserve it, but because in my opinion, I offer something different to most other people that want it. Also, I have been here a long time, which is always a bonus I suppose and the Ub3r upgrade will allow me to get more recognition for my general help as that is what catches the eye of the newer members, and even some of the active members. I wasn't active much before I left for a while, but when I came back my activity has shot up a huge bunch. I am mostly in the "Innuendo" forum helping out other people with their problems, offering advice or just contributing as a whole.

Some of my contributions:

I have received positive feedback and appreciation for helping people out with sensitive topics such as in the Innuendo section and helping them to resolve them. I do it to show that there are still some kind-hearted people out there that genuinely want to help others, and to also make myself a better person in general because I know I'd want someone there if I have a big problem. I recently opened a help-desk which has been very popular thus far:

<https://hackforums.net/showthread.php?tid=4112990> I have received many private messages and Skype messages and made sure to stick to my word on the thread helping the people who have messaged me as wholly as I can. I have also done some free services to assist the community also, and I am looking to do some more giveaways in the future, possibly even a contest such as this one. Innuendo also allows me to become better with helping out with people's problems relating to their emotions, thus allowing me to understand people well in general and I'm also fond of the Rap Battles section, as it helps me to improve my lyrics writing and I love this type of music the most, so it is always good to see people's taste in music. I even won a poetry contest:

<https://hackforums.net/showthread.php?tid=4048595>

Proof of acceptance: Spoiler [\(Click to View\)](#)

A bit about me: I take pride in creating high quality posts and always make sure that my grammar, spelling and punctuation are good in general, because I apply it to real-life and online too.

I'm a teenager currently taking Maths, Physics, Economics and History.

I love to play Basketball and Football and I am good at both.

I'm always looking for new ways to better myself or improve my knowledge on dealing with people

or computers and things that revolve around them both.

Hulk - March 18, 2014, 10:08 am

I see some really good entries already, just too bad I don't have the time right now....

If you haven't chosen someone before tomorrow same time as I post this, I might make a post for my own entry.

Good luck to everyone that's participating. ?

oGyro - March 18, 2014, 10:18 am

Feel a bit silly entering contests like this but may as well. Wont waste my time making it look pretty though. :)

Since joining the forum 5 months ago i have been nothing but active and respectful. I feel i have being a HQ member and contributed positively to several sections of the forum. Before the embargo on normal members posting in the SRPP section i was extremely active there. Partaking in mature discussion and offering an educated argument to several threads. I have now begun to turn my attention to the education nation and i am currently working on a free ebook [\(more info here\)](#) to share with the forum. I have given away more xbox codes/steam games/skype codes/netflix accounts than i can count as a way of giving back to the forum. I also host an android unlocking service which has helped a few members on here. My contributions to the forum are more discussion and information based than hacking as those are the fields i prefer. I plan to stay active and HQ on this forum for the foreseeable future and the only thing holding me back from an upgrade is my students budget. Thank you for reading. ?

[Why I deserve to be upgraded:]

--

I believe I deserve to be upgraded becuase I joined way back in 2012 and I am still thoroughly active today.

I got accepted into the Empire, Respawn, Complexity, and Ub3r on my first try.

I have a 99% perfect rep; with my only negative being from a user who got closed for randomly negative repping people.

I give away things almost on a daily basis and my first thread on Hack Forums was a contest.

I have reported 200+ posts.

I like bananas.

I have been on HackForums for almost 3 months now, I have not been upgraded since I joined and I am now apart of 2 groups as well as leading my own Video Editing and Production unofficial group.

Group #1: Complexity = Web Design & Development & Graphics

Group #2: The Brotherhood = Computing Sector

Unofficial Group: Trinity = Video Production & Editing | Student Programs.

Each of the groups listed above I think are very prestigious and honorable groups to be apart of here on HF. I represent these groups well by creating HQ posts and presenting myself very well to the HF community.

I have also been very helpful in the Video Editing section/Graphics section/Computer Customization section/White Hat Help section/Computer Security section.

Currently working on multiple e-books that involve Computer Customization and generalized computer help as well as marketing strategies and product placement. You may be asking, "why is he now talking about marketing?" Well I am apart of an organization called "Vemma", we sell multiple products and it is a Management based organization that solely relies on the owner of each sector to do their own marketing and sales advertisement to bring income into the company. I have been very successful with this and want to share my marketing knowledge with users here on HF.

Thank you for taking the time to create this thread, warm regards to other applicants! Best of luck everyone! ?
