Thread: [Can you turn victims PC into your VPS?](#)

SexayVate - March 18, 2014, 12:07 pm

Is it possible to make a ratted victim's PC turn into your VPS/RDP without the user knowing it? I'd like to run a few programs on it without the victim knowing it. Also I need to see the GUI and control the system sometimes (like a VPS experience)

Thanks in advance

No it would be too obvious to operate it when it's afk
