Thread: [Hulu Plus & Spotify - 2 Months Free](#)

Best Buy has a promotion going that's supposed to go through their app, but apparently works by just using the links. Some have reported that didn't have to verify anything and were able to sign up.

Please post if these don't work for any reason.

Hulu Plus: <http://bit.ly> [WARNING: potentially infected]/Ns1sIW

Spotify: <http://spoti.fi/1dbbA5p>

You do need a card to subscribe, but can cancel before the trial is over to avoid any charges.

The Spotify one works but the Hulu Plus does not.

You just need to go to bestbuymobile yourself and click it. Worked for me now.

Could be US. It's for 2 months each according to their site.

I haven't used it myself as I have Netflix and Pandora.

Offers are now flipped

Spotify only works for a month trial

Hulu works for the two month trial

Spotify already offers free 1 month trials
