Above are my earnings from just the past 12 hours. I have tried many, many, many ebooks and absolutely none of them ended up bring in a single cent. This is the ONLY ebook that has ever worked for me, and oh my goodness does it ever work well. Thank you so much. This is.... absolutely amazing. This is so easy, I could teach a child to do this. I didn't invest a single cent, except for the purchase of the ebook.

Not to mention the absolutely phenomenal Skype support. This is all around, a perfect ebook. Thank you so much.

Bought the E-book version a while ago, It's very detailed and easy to understand.

Now it's a website version it's even better! more bonus methods and videos are added to even understand it better.

They also offer great support if you have any questions or if you need any help.
I already made \$180 with only 10/20 minutes of work, Imagine if you do this daily!
I give this site a 10/10 for sure.

Flyin' has been all legit to me and stuff. I am very grateful for all the support he and the rest of the support team gives me with the e-book methods.

This is what I made only on May from this,

I am not only vouching only for this but I am also so greatful I met Flyin'. He has been great to me and to everyone I've seen him talking to. This e-book requires some setup, some understandings, as every other e-book does, the difference here is is that it has it all covered up, you can be a no-brainer, you can be anyone, everything is explained so well that anyone can do it.

I'm still suprised that I'm earning that much and scaling it up from someone that was earning 10 bucks a day I'm earning now \$200 a day on average and my profit is still growing. All I can say, is thank you so much, big vouch for this!

Real Reviews From Customers:

(Apr 9, 2014 07:05 AM)Team Player Wrote: [\[CITE\]](#) After reading every E-book I am speechless. I am impressed beyond words.

The Quality : 10/10 - When I read this you can just tell he has you the student in mind. The language is not only clear and concise but it's super easy to follow along and learn.

Grammar : 8/10 - I saw a very low amount of errors but nothing substantial. Even when you spot these small errors, it's very easy to understand the point using context clues and the ease of the reading.

Content: 10/10 - A fuckin cornucopia of information for users to absorb like majin buu. Just over the top unbelievable job. He must have have spend an eternity on this E-book, I'm talking users are going to go back and read parts for months if not years from now. Also these methods will NEVER get saturated as they are things you have probably considered doing but didn't have the right knowledge or resources. Flawless!

Overall : 10/10 - You will make your money back easily if you put a little bit of time into doing these methods. I've read a few other E-books and this one is by far the best. Other than that there's not much else to say here other than to tell users to buy this ASAP. Me continuing with this would be a waste of your time as you should be downloading this E-book and reading it instead.?

(Apr 5, 2014 04:47 PM)zorazza Wrote: [\[CITE\]](#) Recently purchased the E-Book, I like some of you have purchased many Money Making guides. The "Quick Cash" scams that never really payout. Before buying this E-Book I exuded that same necessary skepticism when purchasing in this section. All the same my expectations were disproved when I started talking to the individuals that run this program. At the moment I cannot atest to receiving payments, but I've been walked through all of the methods with professional care, serious answers, and ONLINE support. I've yet to wait more than 10 minutes for an answer from one of the three people responsible for making this E-Book so great. I truly recommend it to people looking to succeed, however you will need to be receptive and do what they say. Other than that, you're golden!

Quality 10/10

I've gone through about 6 Ebooks so far and none seemed as well set up as this one. He has Definitely strived to make sure this contains every detail you need to get set up and started making money.

Grammar 9/10

From my personal run through I didn't see any grammatical errors, but I also wasn't proofreading, I was learning how to make money. If any errors at all, they don't affect this Ebook one bit.

Content 10/10

33 Pages worth of great information. The writer went above the expectations set by other Ebooks, He tells you about himself and his start to making money with his method, after scrolling past the table of contents he spends a good 12 pages just scratching the surface getting you familiarized with what you're about to do. After that, the rest of the books packed full of information and different approaches to the method to increase your chances of making a massive payout

Overall 10/10

After reading through this and comparing it to the other Ebooks I've seen, This is the best in my honest opinion. With these methods I don't see how you couldn't make money, I haven't started yet, but I can already see the money in my PayPal. It's set up nicely, well organized, and makes sure you have an understanding on what you're doing and how to do it. It's not telling you what to do and putting you out on your own. This Ebook itself gives great support on what to do. It does a great job at hitting hard at standard points on what to do and ten times harder on the difficult confusing parts. I personally would recommend buying this EBook to anyone who wanted make money online and easily with a little bit of hard work, with how cheap this EBook is and with it's major profit gain compared to others, It's an absolute steal.

Now I'm off to put these methods to good use and make some money, I'll be sure to update with a picture of how much I've gained after I put some hard work in on this method.

A long with a good ebook you receive excellent support. Flyin is really helping me out the best he can and in my opinion that is better than just someone selling you an ebook and leaving you alone to figure it out. With this ebook you not only make a ton of money but also get support to help you get started and make your money as fast as possible.

With a little work and some time this has to be the best ebook I have read.

OhMyQuad - March 20, 2014, 6:48 am

Was sent a copy of this as i've worked with him a few times on projects and i'll be honest i was surprised.

The copy i was sent was 35+ pages (suggested a few tweaks so page count may change)

This is an honest review.

Quality: 9/10

This ebook has a massive amount of pages, gives you a good introduction to the seller, introduction to the basics of the method, the actual method, and then ways of improving the method.

Originality: 8/10

It's something that i haven't actually seen before which is quite rare, have heard of a couple of the methods mentioned, but others i haven't even thought of.

Ease of use: 10/10

The layout of this ebook means that it's actually easy to setup, some parts of the method take time but this ebook holds your hand throughout the whole of the process.

Layout: 10/10

I haven't seen an ebook before that has this much content, it's well formatted and with the suggestions i made should really improve the ebook.

Grammar: 8/10

Over an ebook with 35+ pages, there is undoubtedly going to be problems with grammar, however that being said not many were easily noticed.

Overall: 9/10

This is a very high quality ebook (and it's not often that i say that) a lot of effort has been put in whilst creating this ebook and i'm sure that you will be able to make a return on this ebook easily and could bring in a lot of money. This isn't without downsides though, it feels at points like he's still trying to sell you on the ebook once you've bought it (only in the introduction though). Overall it's a very HQ ebook and the methods are good, i would actually recommend this to people who are new to earning money.

Regulus - March 20, 2014, 8:35 am

Hello i'm Regulus and i received a vouch copy of this eBook. Now i'm gonna review it.

Quality: 9/10

The eBook is on so many pages and many people can think that's hard and a pain in the ass to read but trust me, this eBook is explained in detail and you will not be able to stop read it once you've started.

Originality: 9/10

I have never seen this explained method anywhere on the Internet and you will be surprised, i have seen this "kind of method" around but THIS method is taken to a whole new level and it's awesome to be honest.

Ease of use: 9/10

This eBook explains everything in DETAILS and the owner of the eBook (Flyin') makes it so easy to understand, even a 12 year old would be able to do this easily to be honest. The way he explains this makes you get so so motivated, you want and CAN start right away with this.

Layout: 10/10

I love it. The eBook is HUGE and everything is so well explained. It's a big text for those who have it hard to read small texts. I know most people have a hard time reading small texts and you just want to close the eBook or whatever it is you're now reading. But this eBook is easy to read, it's a very good layout and you will understand everything he writes.

Grammar: 9/10

I read the whole eBook and to be honest i didn't find any, and i mean ANY wrong spelled words or anything like that in it. You will understand it all.

Overall: 9/10

This eBook is what i call a high quality eBook and you WILL be able to earn with this method easily. I have bought many eBooks on this Forum and haven't earned a single cent to be honest, but with this eBook even i can guarantee you will earn if you put some effort into it and doesn't give up after like 5 minutes, i'm not the owner of the eBook and even i tell you that you can earn. This eBook is for almost all ages to be honest, you can earn with this easily even if you're a 12 year old kid sitting in front of the computer.

This was my review of this eBook. And all i can say is, do not even hesitate to buy this awesome eBook!

Flyin' - March 20, 2014, 8:39 am

This almost 40 page ebook is a fantastic guide to making money online with a very promising method. The grammar is decent - no grammar mistakes that would confuse the reader. The layout and format is very appealing and easy to follow. Overall, this is a great and reader-friendly guide which had great potential if the effort is put in.

This is one of the few ebooks I've seen on HF which I have been impressed by. The details and informations shows that a lot of work was put into its creation. It's well worth the price, especially for those that are new at online money making.

Profit Creator.

I just finished looking through the eBook. The eBook has a solid layout, step by step directions, and pictures. It also includes multiple options for making the most money in which you can decide which method suits you best.

Is it possible to make a great deal of money with these methods? Yes.

Is it going to take some setting up? Yes.

Is it going to be worth setting it all up? If you put in the effort after set up? Yes.

How much effort is this going to take? It will take some effort, but once you get all the initial things done, it's easy and will take little effort.

Is it worth the effort? If you want to make money, yes. If you don't well, you know the answer.

Is the OP going to be able to help me? Yes, he has stood by me with questions and prompt answers every step of the way.

Can a noob actually do this? Yes, anyone who puts fourth even minimal effort will succeed.

Other notes: Money doesn't make itself people, you have to make that money. If you think it's as easy as buying the eBook and 10 minutes later you're watching money come in, than don't waste your time because NO eBook on here is like that.

However, if you're ready to put in a little effort each day, and let your entrepreneurship and creativeness side out, which the OP gives great creative methods in this eBook, I have no doubt in my mind that you will be making A LOT of money.

The possibilities are endless, the eBook offers rich information and methods in which I can see myself succeeding with it. When I am able to put in the effort I will indeed come back and post my earnings and how I am doing.

With the 50% discount that he's offering today, it's a steal. Buy it, make your money back, and then MAKE MORE MONEY.

Get it friends.

Flyin' - March 20, 2014, 12:41 pm

Thank you so much for the review, I'm glad you are satisfied. By the way, the 50% is just for tonight and I will remove this in few hours.

i just finished reading this E-book.

first impressions:

I must say, this looked like a hefty and boring thing to read in the beginning, 39 pages... but it turned out to be a real ease, i think it took me 10 minutes in total.

Quality (9/10)

this E-book is really as high quality as it can get, i fully understood everything in this e-book.

Grammar (9/10)

it contained a few grammatical mistakes but i can't expect more from a 39 page e-book.

originality (10/10)

i have never seen this method ever before. period.

does it do what it says it does? (?/10)

i cannot answer this question yet but once i get everything rolling i will update this post with my answer to this question.

Overall rating (9/10)

this e-book has an amazing layout, it's perfectly understandable and it's an original method... i don't know what else you can wish for. if i were to be you, i would stop reading these reviews and just buy the e-book, it's worth it.

Just wanted to let you guys know that I'm adding some bonuses methods that worth over \$200 to this E-Book, you won't be disappointed.

It's kinda V2, if you buy now you'll get updated for free.

Evad-RU - March 28, 2014, 2:22 pm

Just got my hands on this ebook. I have purchased and read a lot of ebooks through out my time trying to generate money online. I was surprised with what I received, something original that goes into depth of how to earn money fast and a lot of it might I add.

A long with a good ebook you receive excellent support. Flyin is really helping me out the best he can and in my opinion that is better than just someone selling you an ebook and leaving you alone to figure it out. With this ebook you not only make a ton of money but also get support to help you get started and make your money as fast as possible.

With a little work and some time this has to be the best ebook I have read.

Thank you again ?

Flyin' - March 28, 2014, 2:48 pm

I'm adding tomrrow an update and a total diffrent method that can make you even more money. Updates will be sent for free to all buyers, not extra charges.

Sorry about the questions, I'm just tired of being burned by HF ebooks. Out of all the ones I've bought only one worked and that stopped in a few months. Which is why I was wondering how long the method could last.

I bought this E-Book last night, Started and finished reading it today.

I have never seen this method before and it's a very effective method!
I'm sure you can earn a lot of money for this, I just came home and I'm going to start doing this right now!

About the E-Book:

The E-Book itself looks really good and professional, Really clean (no unnecessary pictures all over the E-Book like i saw at some others)

It's very easy to understand, I'm not English myself but I understood everything that's written in the E-Book, It's all very detailed.

Conclusion:

It's a very good E-Book which can guarantee you of making a lot of money every single day.
Well written and very easy to understand.

You have my Vouch!

I've been very interested in the ebook for a while and decided to buy it. For now I can certainly say that Flyin' is a nice person and that you certainly do not need any experience to use the methods in this ebook collection. Nice effort on the videos++

I'm still kind of on the fence about this since proof and vouches can be faked and all and have been when it comes to HF ebooks . But I might give it a chance and pick it up this weekend. At least the premium version so I can get help with the method and the refund if I don't make anything.

Recently purchased the E-Book, I like some of you have purchased many Money Making guides. The "Quick Cash" scams that never really payout. Before buying this E-Book I exuded that same necessary skepticism when purchasing in this section. All the same my expectations were disproved when I started talking to the individuals that run this program. At the moment I cannot atest to receiving payments, but I've been walked through all of the methods with professional care, serious answers, and ONLINE support. I've yet to wait more than 10 minutes for an answer from one of the three people responsible for making this E-Book so great. I truly recommend it to people looking to succeed, however you will need to be receptive and do what they say. Other than that, you're golden!

Flyin' - April 5, 2014, 5:22 pm

cpc93 - April 7, 2014, 8:50 pm

Paid for and vouch for this! Great product for the cost, and is definitely suitable for anyone. There are a multitude of different methods/guides on how to make the amount of money advertised and definitely more. Not only are they well thought out, anyone is capable of applying these methods themselves with no problems whatsoever. Besides being well thought out, explained thoroughly, and having a lot of versatility between each guide; no money is needed to get started. There are videos included as well and extra bonus material. The quality and amount of techniques provided make this suitable to anyone.

Speaking personally, I have already been able to make money in the small amount of time I have owned the guides. It is exactly, if not better than advertised and very well crafted using ideas I never would have thought of myself. I like how he has numerous different techniques, has plenty of different formats such as the videos, and how each one is designed to fit a different person's circumstance. You can make money if you have no money or a lot, if you have a lot of time or very little etc. All different age groups and audiences may benefit from this. I do not want to accidentally reveal anything specific so I am being rather broad in my review. If anything, I can in the very least say that what impresses me the most is the quality of what I received and how it is not just your average type of guide for sale in which when buying it, the hyped up method turns out to be some obvious 'duh why didn't I think of that' type of return (Kinda like when you figure out a cheap card trick). Definitely look into purchasing this especially if you need some good ideas deserving of the price their listed for.

avemitchell - April 7, 2014, 10:02 pm

Above are my earnings from just the past 12 hours. I have tried many, many, many ebooks and absolutely none of them ended up bring in a single cent. This is the ONLY ebook that has ever worked for me, and oh my goodness does it ever work well. Thank you so much. This is.... absolutely amazing. This is so easy, I could teach a child to do this. I didn't invest a single cent, except for the purchase of the ebook.

Not to mention the absolutely phenomenal Skype support. This is all around, a perfect ebook. Thank you so much.

Vouch!

This method is extremely easy to complete. Even for a chimp!

I'm being 100% honest when I say the ebook is not like any other saturated HF ebook.

It will NEVER be saturated! Why? Because it uses one of the most obvious, yet tiny method in the world!

Thanks for giving me the tools to earn \$1000's Flyin!

Evad-RU - April 8, 2014, 10:19 am

Good method, some bad customers. When you don't have terms in place be sure to watch what you input into a public chat or who you communicate with. When customers copy your style exactly it gets saturated pretty quickly. Just lost a \$250 sale and my account that was making money because of one of your customers. What was done about it? Nothing, he is a customer and nothing will be done about it.

Just Finished Reading through everything that was sent in the pack, and I'm still trying to soak it all in. The amount of Content is astonishing, never would these Ideas have crossed my mind, But now that I've read over them I can see how they'd work, Flawlessly.

Quality 10/10

I've gone through about 6 Ebooks so far and none seemed as well set up as this one. He has Definitely strived to make sure this contains every detail you need to get set up and started making money.

Grammar 9/10

From my personal run through I didn't see any grammatical errors, but I also wasn't proofreading, I was learning how to make money. If any errors at all, they don't affect this Ebook one bit.

Content 10/10

33 Pages worth of great information. The writer went above the expectations set by other Ebooks, He tells you about himself and his start to making money with his method, after scrolling past the table of contents he spends a good 12 pages just scratching the surface getting you familiarized with what you're about to do. After that, the rest of the books packed full of information and different approaches to the method to increase your chances of making a massive payout

Overall 10/10

After reading through this and comparing it to the other Ebooks I've seen, This is the best in my honest opinion. With these methods I don't see how you couldn't make money, I haven't started yet, but I can already see the money in my PayPal. It's set up nicely, well organized, and makes sure you have an understanding on what you're doing and how to do it. It's not telling you what to do and putting you out on your own. This Ebook itself gives great support on what to do. It does a great job at hitting hard at standard points on what to do and ten times harder on the difficult confusing parts. I personally would recommend buying this Ebook to anyone who wanted make money online and easily with a little bit of hard work, with how cheap this Ebook is and with it's major profit gain compared to others, It's an absolute steal.

Now I'm off to put these methods to good use and make some money, I'll be sure to update with a picture of how much I've gained after I put some hard work in on this method.

After reading every E-book I am speechless. I am impressed beyond words.

The Quality : 10/10 - When I read this you can just tell he has you the student in mind. The language is not only clear and concise but it's super easy to follow along and learn.

Grammar : 8/10 - I saw a very low amount of errors but nothing substantial. Even when you spot these small errors, it's very easy to understand the point using context clues and the ease of the

reading.

Content: 10/10 - A fuckin cornucopia of information for users to absorb like majin buu. Just over the top unbelievable job. He must have have spend an eternity on this E-book, I'm talking users are going to go back and read parts for months if not years from now. Also these methods will NEVER get saturated as they are things you have probably considered doing but didn't have the right knowledge or resources. Flawless!

Overall : 10/10 - You will make your money back easily if you put a little bit of time into doing these methods. I've read a few other E-books and this one is by far the best. Other than that there's not much else to say here other than to tell users to buy this ASAP. Me continuing with this would be a waste of your time as you should be downloading this E-book and reading it instead.?

After reading this eBook, i didnt now what to say. Its so fucking good and easy, you can earn rly rly much with it.

The Quality : 9/10 - Its just awesome if u dont get the eBook it self, there are Videos show you how to!

Grammar : 8/10 - Some really small mistakes, nothing worth writing about!

Content: 10/10 - While you read this book, you can see the money on your paypal account is rising. This Method is 100% Perfekt and will allways work!
Absolutley white hat without any moral stuff.

Do i get refund if i dont make 720 in two days as stated in the the sticky banner or do i have to wait the 30 days?

lofnetwork - April 11, 2014, 11:10 pm

Just purchased, waiting for PDF password... Will edit this with my review :)

EDIT: Unfortunately it seems all three support members are offline on HF, and all three have not accepted my Skype request.

Okay, so last night I got the password about 45 minutes after purchase. Not too shabby.

My review for this method is A+. I have not made money yet, however I can see how this can EASILY make you money. It requires little effort and there are endless possibilities, the video tutorials are not boring and can keep my attention. I didn't actually read the ebook, because why read when you can watch?

There are 4 different videos that are all not too long, not and get to the point, after watching the 4th one, you know exactly what to do and how to do it.

I recommend this e-book for anyone.

If you have troubles making your money back in few days I'll personally help you do it.

But I personally made \$720 in 2 days, a lot of my customers did too and I can't guarantee you will work the same I did. If you don't earn money with my support, refund, simple as that :)

I am really considering buying this E-book, but I don't know if, and why I should trust this.

I have seen a lot of HQ sales threads of E-books which you could make 100\$+ daily with, but most of them were scams and didn't last for a long time. Wouldn't know why I should trust this one...

Also, as with many E-books, OP could have been given fake vouchers...

Not trying to trash your sales thread nor trying to be a dick. Just sharing my thoughts.

Flyin' - April 13, 2014, 12:17 pm

It's fine, I know people are skeptical about the E-Book market here in HF, they have all the reasons to be, most of the E-Books truly sucks.

I actually considered buying this ebook but judging by this, the grammar/spelling in it would be terrible.

Lots of grammatical issues as you can see.

Although I have not made money yet, that is my fault really. You should really have a verified Paypal account if you want to do this, whether that be through using your own card or a VCC, but that has caused a big delay for me.

It should be noted that this isn't necessary and you can definitely make money without it, I just found myself struggling without it(it is easier to start up this method with a verified Paypal account, later you probably won't even need it). I will update this review when I have been verified on Paypal and have brought in some money. Should have a big payment coming Monday!

This eBook has potential and the owner is adding more methods with time, which is impressive. I am pleased with the support so far, and the methods are in depth and definitely will make you money if you do them right. \$300 a day isn't an exaggeration as you can build on what you earn over time and make more and more and more.

I've purchased this a month ago.

Flyin' has been all legit to me and stuff. I am very grateful for all the support he and the rest of the support team gives me with the e-book methods.

This is what I made only on May from this,

I am not only vouching only for this but I am also so grateful I met Flyin'. He has been great to me and to everyone I've seen him talking to. This e-book requires some setup, some understandings, as every other e-book does, the difference here is that it has it all covered up, you can be a no-brainer, you can be anyone, everything is explained so well that anyone can do it.

Flyin' - May 11, 2014, 8:53 am

Awesome job man. Love your work! :)

-Gohan- - May 11, 2014, 9:02 am

Looks like a great eBook and I will probably purchase. One thing that turns me away though is he said that he doesn't have a TOS, but he clearly does on his site.

1. Unauthorized Refunds will result in a scam report
2. Any attempts to Leak, Chargeback, or Slander my product will result in no refunds at all
3. Refunds will be given after you have tried the method for 30 days with my support and you have full proof you haven't made anything by the method. Chargebacks will result in no refunds at all so for any requests send me an email at: giladbahir669@gmail.com and we'll resolve this.

If you buy the premium method you only have a 14 day moneyback, but his TOS says you need to have tried the method for 30 days before a refund is given. You cannot have contradicting statements in a sales thread. Also I am wondering what his criteria is for proof that you haven't earned any money off this eBook.

Anyways, looks good, if those questions are answered satisfactory for me then I would definitely get it.

You will get a refund if you tried it with my support and failed to earn money (I believe you won't need it tho).

(May 15, 2014 07:51 PM)Paul Wrote: [\[CITE\]](#) I just bought this and I'm quite disappointed. I went through the entire thread and now I'm starting to believe many of the vouches are fake. Basically, I've seen at least two (I haven't looked at everything extensively yet) of the main methods and they are basically publicly known. I literally found a public forum post that explains pretty much everything for his method three, but without the costs. This is certainly not what I expected to get for \$27, and I am certainly glad that I did not buy the upgrade. This just comes back to the common theme on this website and a lesson I should have learned long ago: DONT BUY EBOOKS ON THIS SITE. I am willing to give these methods a chance though, and I'll be back to update on my progress.

Also, for those of you who are wondering above, depending on what method, this is most likely already saturated, but if you find your own niche within the method, you might be able to make money.

To reiterate, I'm extremely disappointed in this purchase. Many of the reviews claim excellence, but one of the first tutorials I read (in the bonus section) was poorly formatted and contained TONS of spelling errors (ex: spells the word 'customer' as 'costomer', really???.??).

This has been my initial review of the eBook and I'm hoping that I can write in a more positive light when I come back to update this.

Buyer beware.

Thanks I'll wait for more info before buying.

Does the \$28 one include the videos and everything?

Flyin' - May 20, 2014, 10:35 am

Yep, the \$27.99 pack includes everything expect Teamviewer support and special setup assistance.

Is what it say when I click buy now.

It works for the \$50 one but not the \$28 one.

Hi i just purchased! hoping this is good.

Hey huge vouch for this, but I must give my review and opinion

Please note; This is how I thought of it and how it went, for you it may be completely different.

Pros: Support 24/7, Good setup, Decent explanation

Cons: Very basic method that is already known, Not as good as it seems, Didn't make \$1, too good to be true, owner gets a little bit mad when you ask too many questions and his assistant is stupid, Owner's grammar is terrifying.

I mean lets face it, if we could make that much a day, we would all quit our day jobs, just think about.

However as mentioned before, this is how I found it, for you it may be a completely different thing.

Happy buying. :)

Flyin' - May 22, 2014, 2:11 am

Please don't write a review if you're not a customer, thanks.

MouseDesign - May 22, 2014, 2:33 am

Just bought this e-book. Going through everything now. Flyin' is actually quite happy to reply to any questions asked. The overall work that he has put in it actually shows. I'll keep you guys updated by this evening. Good job so far Flyin'.

Hello.

Stupid is a strong word, but I appreciate your criticism.

But then again, how do you know this when you're not even our customer and I never even spoke to you. At least, not that I know.

Get your facts straight buddy.

Sales are closing today, this is the last day of sales.

Xtrem3 - May 26, 2014, 10:05 pm

Throughout the pages I see that you mention numerous methods in this post. How many methods do you have in the ebook?

Flyin' - May 26, 2014, 11:11 pm

I have 3 methods in the eBook, all of them designed for diffrent people so everyone would be satisfied.

strike325 - May 27, 2014, 5:38 pm

Hello,

Currently purchased this e-book about sixteen or so hours ago. Just ing to let OP know I'm waiting for my e-book ;(

Xtrem3 - May 27, 2014, 9:28 pm

I also need to know when does Profit Creator support comes online on skype?

Been 2 days since I added them and still not online... I have some questions I would like to ask.

Flyin' - May 27, 2014, 11:32 pm

I'm online at Skype bro, just PM me there and I'll answer. Adding everyone to the site atm!

Any selling needed for this method?

restl3ss - June 21, 2014, 12:40 pm

you have to sell something and no refund

Flyin' - June 22, 2014, 12:38 am

Nope you don't have to sell anything if you don't want to there are 3 methods in the site. And refund will be provided if you tried the methods and didn't earn.

If you can earn up to \$600 a day. You and your partner could make \$500 each daily by putting 4-5 hours of work into it(if the info you provided us is true). So here is my question, why sell the method and barely get sales if you could make a lot more by using your own method?

?homas - June 28, 2014, 10:48 pm
