Thread: [Compilation of all my tutorials/sources.](#)

SomeWhiteGuy - November 11, 2014, 12:00 pm

This is just a reference, mainly because most of my threads are extremely old and some newer (or older) members might not be aware of their existence. Please do not post on ridiculously old threads. If people start grave-digging threads, I'll start locking them. If you have a question in regards to any of the threads listed below, you can feel free to PM me. Sources [\[Source\]](#) / [\[Snippet\]](#)
[Sport bet\(s\) accumulator function.](#)

[\[Source\] Public HWID Base](#)

[Source - Retrieve the title of a site and add it plus the link to a ListView. & More](#)

[Source - Drag and Drop Example](#)

[Source to My Packet Sniffer](#)

[Source - How to Handle/Create URL Protocols](#)

[Source - FileSystemWatcher Example](#)

[Snippet - "Type Writer" Effect in the Console](#)

[\[Release\] PasteBin Library for Submitting Pastes](#)

[\[Snippet\] Disable Close \[X\] Button](#)

[\[source\] l33t hecker spammer v1.25 \[/source\]](#) -- While meant to be "troll", the source is working and 100% legitimate. A good example of using SendKeys and other things.

Tutorials [\[Tutorial - VB.NET & C#\] How to use Delegates to update controls on another thread.](#)

[\[Snippet/Tutorial\] How to make a shortcut programmatically.](#)

Working on finding and adding other threads.

Dark N3BULA - November 11, 2014, 12:57 pm

thank you for sharing mate. Cheers!

Hawk HF - November 11, 2014, 2:12 pm

I'm glad you posted this.

Hopefully people will actually look at these sources and not just C/P.

Support™ - November 11, 2014, 3:20 pm

Back in the days, your thread about using 'Delegates' was of much help to me. Just wanted to say thanks for that :)

SomeWhiteGuy - November 11, 2014, 3:27 pm

Not a problem. Glad it could be of some assistance to you.

IAmNotHere - November 11, 2014, 3:44 pm

I pm'ed you earlier.

Thanks for the tutorials.

I tried to follow the Packet Sniffer tutorial, but the link:
<http://www.ps3-forums.net/apps/snort/download.php?id=4>
is dead.

is dead.

Ah.

I'll look for the files now. Gonna be kinda shitty if I can't find them, but I'll try.

IAmNotHere - November 11, 2014, 3:59 pm

Thanks, I will take a look later.

Here is my answer longer then 35 chars.

SIM-2137258 - November 11, 2014, 4:03 pm

Thank you for sharing your tutorials.
