Thread: [League of Legends official group - Nexus](#)

Hexicidal - March 21, 2014, 3:17 pm

What is League of Legends?

League of Legends is a fast-paced, competitive online game that blends the speed and intensity of an RTS with RPG elements. Two teams of powerful champions, each with a unique design and playstyle, battle head-to-head across multiple battlefields and game modes. With an ever-expanding roster of champions, frequent updates and a thriving tournament scene, League of Legends offers endless replayability for players of every skill level.

It looks like Instinct finally has a real competitor.

Fafaffy - March 21, 2014, 4:07 pm

So... I don't wanna be that guy (well, actually I do. I love being a dick), but what's the main point to this group besides the shiny userbar?

We have a section dedicated to LoL where anyone is able to give their own advice, and make public brag threads. Your sub-forum, though it may be active due to the post requirements, offers little advantage. The only advantage I see is people want to help in this thread because they feel elite, or just group up with someone to Duo with.

I honestly don't see the main purpose of dedicating a group to this one game in general, what's your plan, Hexicidal?

Graybyte - March 21, 2014, 4:10 pm

50\$ to join a LoL clan? Whoa.

Unless you can afford to wipe your ass with your dollar bills then this is a very high price.

There are multiple gaming groups here.

-Group vs Group.

-League sanctioned tournaments (with prizes from Riot)

-Getting people structured and organized into a group allows for serious players to meet one another. Also allows for better duo que, and it's better than searching for someone who knows their shit.

- People boost all the time, who knows maybe this group will offer boosting for free.

-May offer lessons in LoL- Learn from diamond players(this service cost a bunch on other forums)

-Discussion of one of the biggest esports in history(within the confines of a group, far better than the disorganized mess that is the LoL section)

-Access to members with a ton of accounts, proly lots of free accounts.

-Tut's that members in the League section don't get

I mean it can be whatever we want it to be. Plenty of reason to have the group. If someone enjoys league why not join?

Smexy - March 21, 2014, 4:19 pm

I just wish i had 50\$ now, i want to join so bad. c:

Unless you can afford to wipe your ass with your dollar bills then this is a very high price. Well if you have a hobby like sky diving, wood shop, metal shop, biking, skating etc..., and you add the cost of those hobbies together+time spent they will far surpass the cost of playing league, buying skins and joining this group.

You buy in 1x, get access to a ton of shit, and people, you can spend hours playing league. Honestly it's cheaper than a lot of other hobbies considering the time and money you spend.

Also there is a recruitment thread comin up soon. Those who don't wanna apply, or don't feel like they will make it in can pay.

Vinnie - March 21, 2014, 4:21 pm

What is ultimately the whole point of any group that resides on HackForums? In retrospect, aren't we all fools just hanging behind a computer screen increasing our epenises based on how many friends we make online?

The group is what you make of it, and I accept what it is. Groups are viewed by their userbars, from the outside at least. With this group it will define a specific community on HF and will encourage more than just the LoL section will. I don't know how that statement holds up when compared to other groups also. Simply because you apply that idea to every single one. If you choose to apply it

solely to my group, I don't see that as fair.

Null > Hacking section

Respawn > Gaming section

FBN > Graphics section

Legion > Hacking section

Red Lions > Lounge

Instinct > Gaming section

Infamous > Lounge

Illuminati > Marketplace

Polymath > ???

Nexus > LoL section

The Republic > Lounge

The Empire > Lounge

143 > Innuendo

Complexity > Lounge

The Brotherhood > Lounge

MRT > MRT section

All but one group I can truly label to an appropriate sub section.

The only groups that focus on one core aspect are in fact, 143, MRT, and Illuminati. Even arguably then, they could be viewed as a mixture of whatever they wish to be. It just comes to the point of view you wish to assess everything with. Groups at the end of the day aren't any more than a sense of community on a forum. I plan to offer a high quality standard than what the current LoL subsection has to offer. Alongside private guides, giveaway, tutoring, game nights, and such. It doesn't have to all clean-cut though, we can do as we wish.

Thank you for asking that question though, because it further drives what I want my group to be. :)

VinceVega - March 21, 2014, 4:23 pm

What happened to da w33d brah?

I still prefer playing League over getting buttered up though... (Who am I kidding I'll do it at the same time for m4ximum amount of deaths ???)

tl;dr stuff

Thank you for asking that question though, because it further drives what I want my group to be. :) I get your point, and I do agree it would be stupid to single you out on this issue as it is pretty much the same with the others. Thanks for taking the time to write that post, it's a surprisingly valid argument.

I won't lie it does seem like an interesting group if people are going to be posting tutorials. It seems like a fun group, and when you start accepting applicants, I may apply depending on the requirements.

Best of luck to your group; I'm mostly impressed how you maturely responded to me.

I really dislike your responses.

You because disregarding everything else I said and respond to one point(which I expanded on earlier in the thread) and then act like "OH LAWD I SO SMART WITH MAH REPLY". Hurr durr I can be cocky now. No.

Based on the posts you make here on HF I've concluded that you really don't know how to argue well, and talk out of your ass half the time you try. So please, stop lol. It's ridiculous how bad it is, I tried debating you, and I didn't say anything but honestly it's not a one time thing, every time you post it's something that's arbitrary and backed only by your own critical thinking skills (which are poor). I suggest you look at facts, like the fact that LoL has a huge fan base, that the community for it here is big and that \$50 to gain access to people, services, and tuts is relevantly cheap in the grand scheme of things, instead of criticizing and acting like a cocky prick.

K tnx, please change for your own good.

Lol why is my name in quotations there bud? It's not an RTS mate. It's a moba, so comparing it to other RTS games isnt really the way to go. Compare it to other MOBA's. Either way, nice to know you werent arguing, I agree it's not the "best" RTS game but it is a fun MOBA with lots of potential.

Kayoz - March 22, 2014, 4:11 am

Looks like a nice group and I'd definitely join if I had the cash, which sadly I don't have.

~HF~ - March 22, 2014, 4:27 am

Thanks, Hex.

Mate, you're bringing down the average skill level of Nexus significantly.

Roger Waters - March 22, 2014, 9:31 am

I've started getting into League after some of my friends told me about it. I'm not that bad but i'm not the best at it lol. If anyone wants to add me to play send me a PM, so that I can add you. I might apply for this group when the recruitment opens up.

NotUsingAnymore - March 22, 2014, 9:43 am

You may want to remove the referral link. As all referral links go to the [Referrals](#) section.

Anyway good idea for the people who likes League of Legends.

epic group worth every penny. plus it comes with a free sexy userbar

SubGenius - March 22, 2014, 2:20 pm

Nice usergroup, nice userbar, nice game.

But paying 70 bucks to enter is too overated, anyway best luck from me.

Tenaxium - March 22, 2014, 3:05 pm

I have been playing LoL recently and will apply when I can.

\$70 is to rich for my blood.

Prefix ? - March 22, 2014, 4:19 pm

looks like a nice group sadly I don't have 70 bucks to pay to join a group but looking forward towards applying I am a huge league fan main support/jungle.

Retribute - March 22, 2014, 4:24 pm

All I do is play League now so hopefully I'll be able to be apart of this group eventually.

Good luck.

Everyone plays fucking LoL!

I love meeting new people.

I hope they have a RC soon, I'm looking forward to apply!

Kosmos - March 22, 2014, 11:36 pm

Thank you everybody for the feedback, so far. Recruitment may be as early as May (a rough estimate, no promises). We are trying our hardest to organize the sub-forum. If you have seen the majority of Hexicidal's old "buy-ins" for Void and Logic, you would know that most of the money is going to a good place. I can make a good guess to assume that some money is being saved for server costs (TS, website, among other things to help keep the group together).

Please be patient with us while we get things together. You won't regret being patient. ?

Hexicidal - March 23, 2014, 12:42 am

After work tomorrow, I plan to for full fledged into Nexus. I will revamp the subforum to where it needs to be and I plan to do a personal recruitment soon for high elo.

But " supporting the group? " Does that mean support the owners with alof of money? :-)

Cellulosic - March 23, 2014, 11:07 am

It probably doesn't look like it, but I do play league of legends quite frequently. can't wait to see what this group holds in the future.

With statements such as "don't take this personally" or "in my opinion" are said when the thought about to be stated will offend.

That doesn't mean anything.

If you don't wish to purchase in, please don't.

If you donate \$100 to <https://wish.org/ways-to-help/giving/donate> I will put you into Nexus.

I take money I receive and I do what I wish. That encompasses student fees, group needs, and charities.

I play on an Intel Celeron with 2 gigs of ram and get about 10-15 FPS (1-2 in some team fights) but I have to say playing on a potato isn't very fun however Tuesday my parts get here and my potato is

upgraded into an FX-8320 with 8 gigs of ddr3 ram.

The buy-ins are going to contribute to the development of the group. If you feel that you really want to join and that you want a permanent spot in the group (unless you break a rule, or miss an activity check), you should buy-in. If not, you could patiently wait until we start recruiting by mid-April or early May. :)

I hope to see you in the group in the future, whether it be by application or buy-in. We treat all members the same, as they are all here for the same reason; to fuck shit up in League.

Yeah stacking boots is something that all pro players do.

Zeds Dead - April 3, 2014, 6:27 am

I stack sorc shoes on Brand in ARAM. liandrys does % current hp and resets on his passive ticks which do % max hp. All you have to do is hit abilities and let them tick away. Just watch your magic pen and make sure you don't buy more magic pen than they got magic resist. I also use a 20 magic pen rune page for that :P
