No website needed. Just edit the URL a bit like this:

Code https://fbcdn-profile-a.akamaihd.net/hprofile-ak-prn1/t1.0-1/p130x130/TheProfilePic#_n.jpg
change to

Code https://fbcdn-profile-a.akamaihd.net/hprofile-ak-prn1/ThProfilePic#_n.jpg

Can you add support for all pictures of the user?

Get the Facebook ID and search for the following;

https://www.facebook.com/search/ID_HERE/photos

And also;

https://www.facebook.com/search/ID_HERE/photos-of

This way you get all the pictures for the user.

greybat163 - April 17, 2015, 1:13 pm

404 error no such page exists ?
