Hey man, very interested in that vouch copy. I'll pm you in a second.

Edit: I received a vouch copy and used the bot overnight. This bot is really good and does exactly what is promised. At first, I was not sure how to start the botting, but OP gave me great support. A feature that I would recommend is a like counter, but that does not affect functionality. The bot already has a browser that shows you the pictures that you have liked, so that you know it is working.

If you are lazy (like me) and have an Instagram account, get this bot.
The only part that I had trouble with was deciding which tag that I wanted to use.

Once more features are added the price will rise. For those that have already purchased it, you will receive lifetime updates if you check back on the thread to see when its updated.

Fitz - March 26, 2014, 10:45 am

Getinsta is only \$10, with way more features such as commenting, following, and checking different clients.

I don't think you should raise the price tbh :P

Those features are currently in the process of being added.

All the other IG bots with these features are at 20\$

EDIT: But remember, no extra cost for those that purchase it now rather than once updated.

iJezuz - March 27, 2014, 6:31 pm

Is this to like photos.. or to gain likes on photos?

Visualize - March 27, 2014, 7:06 pm

You should have a range of delay instead of being at a static x amount of seconds.

Also you should set a limit on how many likes per hour. It gets risky after ~160

Cainam - March 27, 2014, 7:52 pm

It isn't static. I don't know why you assumed. Actually it doesn't get risky at all. IG only allows a max of 300 likes an hour, and going over only gets your account locked until you do a captcha.

Gulp - March 28, 2014, 2:52 pm

Do I have to have an account list or anything for this to work? Or once I buy it will I just be able to do everything? (Like do I need to have any other things besides the program)

It's lifetime. Comment/following is being added soon. The one that doesn't say support gets a readme in case they can't figure it out. It's really not hard at all lol.

No I don't own it. The software is called TweetUp made by the user Lajcik. He has Instagram software that does the same as yours except it is monthly.

While I personally wasn't able to get this running on my computer for whatever reason (likely something with my configuration, but still), mashuginaH was kind enough to try to help me out. When it still wasn't working he even agreed to give me a full refund. Excellent seller and a nice change since most of the people on HackForums tell you that you're just shit out of luck and keep your money.

Umm what settings would you be using? I normally only use like. follow was added per request.

T-3ster - May 22, 2014, 5:26 am

Looks like a great service, good luck with sales.

Cainam - May 22, 2014, 5:57 pm

I will be updating the thread shortly. All crypto currency will be 15% off

Cainam - May 25, 2014, 9:15 am

A thread design is being made and should be up within the next day or two

Cainam - May 28, 2014, 11:00 pm

The guy making my new thread design disappeared so I am looking for new designer. Discount is 20% for BTC/OMC

Cainam - June 11, 2014, 3:57 pm

Im looking for a very good gfx artist to make a nice thread design as the last guy disappeared.

SwimmingPool - June 23, 2014, 12:38 pm

Thread says that it is Autobuy... its not. My account wasn't activated. Sent OP a PM, still waiting his reply.

Will update post once I get access.

It is definitely auto buy. You paid and received the program without me being there. Getting it verified is a different story. It's for safety purposes. Anyways you are verified

Cainam - July 12, 2014, 12:14 pm

Now accepting Oldschool Runescape gold for both monthly and lifetime.

Fr3shN3rd - July 16, 2014, 12:25 pm

Do you even have a picture showing how the software looks like ?

Snapchats hmu - July 30, 2014, 9:16 am

im so lucky I bought this before the new update! glaws this product is hq

Cainam - August 2, 2014, 11:30 pm

Thread has been updated. I hope everyone like the new design and new packages are available with new Autobuy with NETSEAL licensing!

?implicity. - August 2, 2014, 11:32 pm

Best of luck with sales mashuginaH!

Ergo Proxy - August 3, 2014, 2:42 am

I cant get the follow feature to work properly, it searches the tag but thats all it does.

Cainam - August 3, 2014, 11:43 am

Thanks for the heads up. It is being looked into. I know the other features are working because i ran them last night.

InvestWise - August 4, 2014, 8:53 am
