Thread: [For loop in twebbrowser navigate.](#)

zsolt1126 - March 23, 2014, 6:34 am

Hi all.

I wanna make a for lopp for this example.

webbrowser1.navigate('javascript: \$("[value=1]").click();') from
webbrowser1.navigate('javascript: \$("[value=100]").click();') to

the variable is the value will.

i will make the clicking with timer.

thanks

pls help mee

Code var

```
V:String;  
I:Integer;  
begin  
  for i := 1 to 100 do begin  
    V := 'j $("[value=' + IntToStr(I) + '"]').click();';  
    webbrowser1.navigate(V);  
  end;  
end;
```

    webbrowser1.navigate(V);  
  end;
```

end;I tried bt not work. i give white background in the webbrowser with [object,object]
string. here is my code

```
procedure TForm1.Timer1Timer(Sender: TObject);  
var  
  value:string;  
  i:integer;  
begin  
  for i :=805762 to 805764 do begin  
    value := 'javascript:$("[name=' + IntToStr(i) + '"]').click();';  
    webbrowser1.navigate(value);  
  end;  
end;
```

    webbrowser1.navigate(value);
end;
end;
try to add a delay after every navigate() like sleep for one second.
```

The problem was the IE 11. I changed explorer7 and now work. :) The code was good. thanks :)
