This is the replay of Polymath Live Radio broadcast on Saturday March 22. Here it is for people that missed it. We reached 55 people watching halfway during the broadcast and about 1k comments.

This is the recording, but nothing beats watching it live.

[img]<http://i.minus.com/ilhgDFVxAEAaI.gif>[/img]

In this broadcast, Froggy talks about the following topics.

- Polymath
- Some things about a pregnant cat
- Advertisements
- Void->Nexus
- Her 10k reps
- Shoutouts
- Music Requests
- Spyro The Dragon
- Some other things

Most of the broadcast is just music playing so you have to filter it out if you only want to hear what Froggy had to say. Although she did not rant about anything at all lel.

The sound on this one is not as high quality like when you hear it live.

Morchid - March 23, 2014, 9:44 pm

This was a pretty good first run, I'm hoping that next time it could be a bit longer.

*Many listeners need to improve their taste of music. :)

Timo - March 24, 2014, 12:29 am

Shield, do you accept geust DJ's?

I have alot of experience, and i really like the style of music thats going on on the radio (I mean, beginning with Flight 101, enough said).
PM me about this if you would like to.

#BORNE - March 24, 2014, 12:46 am

Thanks for posting OP, I will be sure to watch this later on ?

Skitlz - March 24, 2014, 1:04 am

Just watched it, not enough speaking and the topics she covered didn't include much information.

Would love to see more next time, But.. I must say good job ?

Deutsche Bank - March 24, 2014, 1:32 am

It would be cooler if you got people to host segments. For instance, maybe a person could fill a 1 - 3 hour slot. This way you could have quite a nice stream going.

Stealth - March 24, 2014, 4:58 am

This is something that we plan to make a normal thing. Keep posted for updates everyone

I had my Skype muted, I'm not sure where those came from. Possibly the person that recorded it.

Yes, this was mine, my apologies everyone LOL. I couldn't ever hear it going off, because well I couldn't hear any audio, because I did a record loop so I had to listen to the show off my radio while my computer recorded the audio.

Fix Yo Bottles - March 24, 2014, 6:25 am

Froggy did an excellent job but that music doeee ???

Ever Flow - March 24, 2014, 7:47 am

Rough times for when froggy starts talking.

Spoiler [\(Click to View\)](#)

4:18 Froggy starts talking with a quick intro she doesn't really say anything else

11:43 Talks about Gaming Cave and the promotion

18:08 Void changing to Nexus and what she thinks about it. The 2 for 1 Instinct and nexus deal

21:40 Froggy talks with sigma and he went super echo. Advertise about unlimited voting service. She did some shout outs. Running over a technique cat?

Her opinion on the new group Polymath and what they offer. '

31:00 WAKE ME UP BEFORE YOU GO GO >_<

40:47 Spiral the dragon joins with Froggy. Talks about her 10k rep.

45:39 Giveaway that already past

54:12 Advertisements and ends here.

Feedback

I thought it was pretty good for the first time. The content itself was a bit short but I'm sure it will be a lot better next broadcast. The music was good. Froggy got a lot better every time she went to talk about something. A bad habit to watch out for is saying umm a lot and that's about it.

I look forward to listening live on the next one.

SIM-1091100 - March 24, 2014, 7:59 am

This is honestly the coolest thing that a group has ever done. Keep up the good work.

Pray - March 24, 2014, 9:00 am

Personally I'd like more discussion than music, but that's just my opinion.

Besides that, I really liked it. Good job.

Agreed, not bad overall. If you guys wanna make this a long time thing, maybe work in conjunction with the HF news team and release with them to discuss some of the main things on the news, and then have some "hf personalities"(this makes me cringe) offer their view on the things the big things happened on HF, with Froggy asking questions, and being the mediator.

Hell yall could get Crazy from the SRPP section and Crazy8'th to do a debate at some point I'm sure lol.

Town - March 24, 2014, 9:45 am

If you'd like to hear the best part of the entire broadcast skip to 47:27. No other section within the broadcast could surpass this one in any way.

I do believe the broadcast was very successful though. However, it could have included a bit more

information and talking.

Happeh - March 24, 2014, 4:09 pm

I'd be interested in doing a couple of these if my connection can handle it. I have the equipment to do so. c:

Great work!

Maybe add a track list to the next episode!

So people can know what is the exact name of the track they are currently listening to!

The radio is more of a community / get involved thing by what I noticed. Froggy took lots of suggestions from the viewers. She also said the track name a few times in the chat.

cyberducky - March 25, 2014, 12:13 pm

Still would like to know if there is a possibility that I could host sometime. I am a very entertaining speaker.

Yes I know, but if you listen it back you sometimes got the question:

How was this track called again?

Sometimes it is pretty useful!

I don't know. The terrible music isn't worth anybody's time. Just Froggy talking would be cool-ish.

Just a suggestion.

username.

How long will you be accepting people for?

I would love to Co-Host /Host a segment (Maybe like an Ad-Free 50? Maybe a chat show with another member?) but I don't have the time for a few weeks.
