Sales thread: <https://hackforums.net/showthread.php?tid=4086544>

Hello everyone.

A few weeks ago I've discovered a method which has huge potential to make some big cash. After a few days of work, I'm up to making minimum \$1500 weekly now, which will increase more and more over time. Most of the income is autopilot by now, and the main earnings come on weekends.

Few short words about the method: I'm not gonna bullshit you and tell you it's autopilot from the start. Well, it's not, you'll have to work for it. The work, although, is very simple and you do not need to have any previous knowledge of anything to do it. A child could even do it. The harder you work, the sooner the method will demand less work and eventually turn into autopilot. I'm quite sure that you'd be able to earn like me if you decide to put in enough of your time. By that, I mean around 2 hours daily. The method needs a minimum investment to start, but I'll cover that for you. The method is 100% Whitehat, legal, moral, etc.

Take your time to answer the questions the best you can, don't forget only one person will be taught this method in this giveaway.

So, let's start, the form (different from part1):

Code [b]1. Age:[/b]

[b]2. Location:[/b]

[b]3. On a scale from 1 to 10, how creative are you:[/b]

[b]4. How much hours/day are you willing to dedicate to this:[/b]

[b]5. Are you a gamer:[/b]

--Answer the following questions only if the answer to 5 is 'yes'--

[b]What do you game on (PC/consoles):[/b]

[b]What games do you play:[/b]

[b]Do you have contact with other gamers (e.g. a gaming clan, youtube channel, active on some gaming forums etc.) (if yes, describe into detail):[/b]

[b]Do you ever watch twitch.tv livestreams: [/b]

[b]6. Why would you like to learn this method: [/b]

[b]7. Write a few words about yourself (max 5 sentences) so I can get to know you better: [/b]The contest will end on April 6, 8PM CET.

Disclaimer:

It might take up to a week until you start earning.

The method will not magically generate money for you.

The method will never get saturated.

3-day payment as of Feb 7-9.

This weekend's earnings are coming tomorrow as I'm waiting for today's payout.

EDIT: Here they are. The payout on 15th is a 3-day payout.

Good luck!

Age23

LocationIndia

On a scale from 1 to 10, how creative are you?9.5

How much hours/day are you willing to dedicate to this?3-5 hours depending on availability.

Are you a gamer?Yes

What do you game on (PC/consoles)?PC

What games do you play?Age of Empires and Fifa are my favourites. Other than that, I play counter strike, Need for speed and many others.

Do you have contact with other gamers (e.g. a gaming clan, youtube channel, active on some gaming forums etc.)? (if yes, describe into detail)I keep my tabs on on Youtube and game reviews. I do not have personal contact with other gamers though other than my friends irl.

Do you ever watch twitch.tv live streams? Sometimes so yes.

Why would you like to learn this method? I have been into monetizing since late 2009. I joined HackForums to learn about hacking and ratting. While in the process, I was greatly influenced with the marketplace and active members in that section. I was amused after going to bragging rights section and that became my favourite section. Since then, I am on CPA and I have earned a lot but CPA brings less income to the work or efforts I put in so I am in search of methods which would actually make me earn at a fair ration to amount of work put in. And your method sounds just perfect. I am also trying to help my dad with financial support.

Write a few words about yourself (max 5 sentences) so I can get to know you better. My name is Omkar. I have dad, mom, elder sister her daughter as family. I am very good with my friends and have a good relationship since 4 years with my girl :) PM me if you want to learn more about me.

Thank you for the opportunity! This is my 4th or 5th shot at this. I am willing to post my honest review as well as my further experiences with this method to help your sales. Good luck everyone.
